DISCUSSION

The Public Works Agency's Water Resources Division (Water Resources Division) oversees the operation of 21 City-owned wells, seven pumping stations, 50 water quality monitoring stations, ten storage reservoirs, and over 480 miles of water pipeline. The Water Resources Division is committed to providing safe and reliable drinking water to the City's residents, businesses, and visitors through more than 45,000 customer connections. The Division conducts extensive sampling and testing to ensure the water served meets all applicable water quality standards.

In 2023, staff collected 12,543 water samples at various sampling points in the City's water system. To ensure the City's drinking water meets all U.S. Environmental Protection Agency and California State Drinking Water Health Standards, staff relies on effective water quality testing materials, supplies, and equipment.

The Invitation for Bids (IFB) No. 23-179 was advertised on December 1, 2023 on the City's online bid management and publication system, PlanetBids. A summary of IFB vendor participation and results is as follows:

208	Vendors notified
7	Santa Ana vendors notified
10	Vendors downloaded the bid packet
2	Bids received
0	Bids received from Santa Ana vendors

Bids were solicited, opened on December 15, 2023, and evaluated (Exhibit 1). Two bids were submitted by the IFB deadline, and the bid submitted by Hach Company of Loveland, Colorado, was determined to be the lowest, responsive bid to the specifications of the bid, and met the City's requirements.
