

City of Santa Ana Draft Maps

NOVEMBER 15, 2021

Traditional Redistricting Principles

Complying with the Fair Maps Act

The Fair Maps Act passed by the Legislature mandates a set of criteria we must follow when drawing district plans.

- Relatively equal size - people, not citizens
- Contiguous – districts should not hop/jump
- Maintain “*communities of interest*”
- Follow city and census designated place boundaries
- Keep districts compact – appearance/function

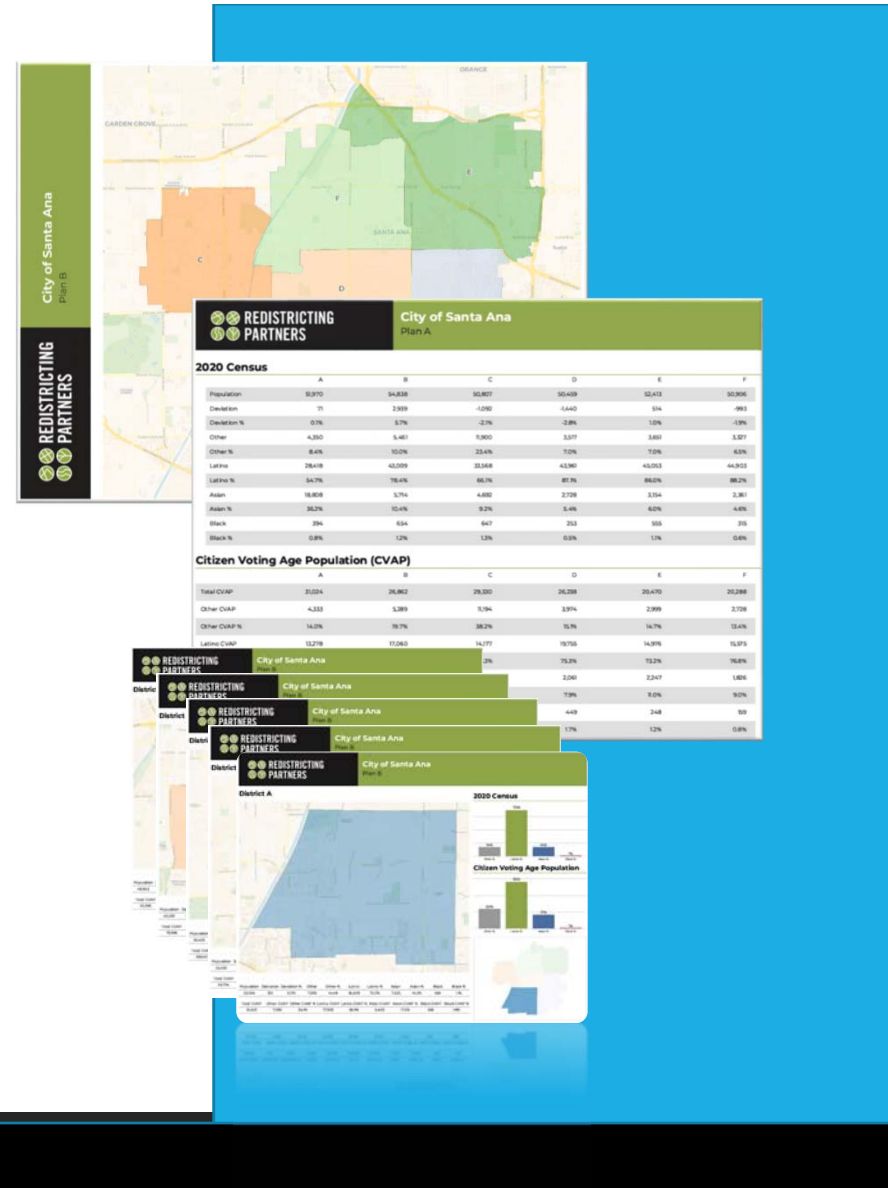

From COI to Maps

With the Fair Maps Act requiring cities to include the public input in the redistricting process, we move redistricting out into the public, with maps driven by Community of Interest testimony.

Input from community drives process with multiple ways for the public to engage.

Rules for process emphasize the importance of traditional criteria and minimizing divisions of neighborhoods.

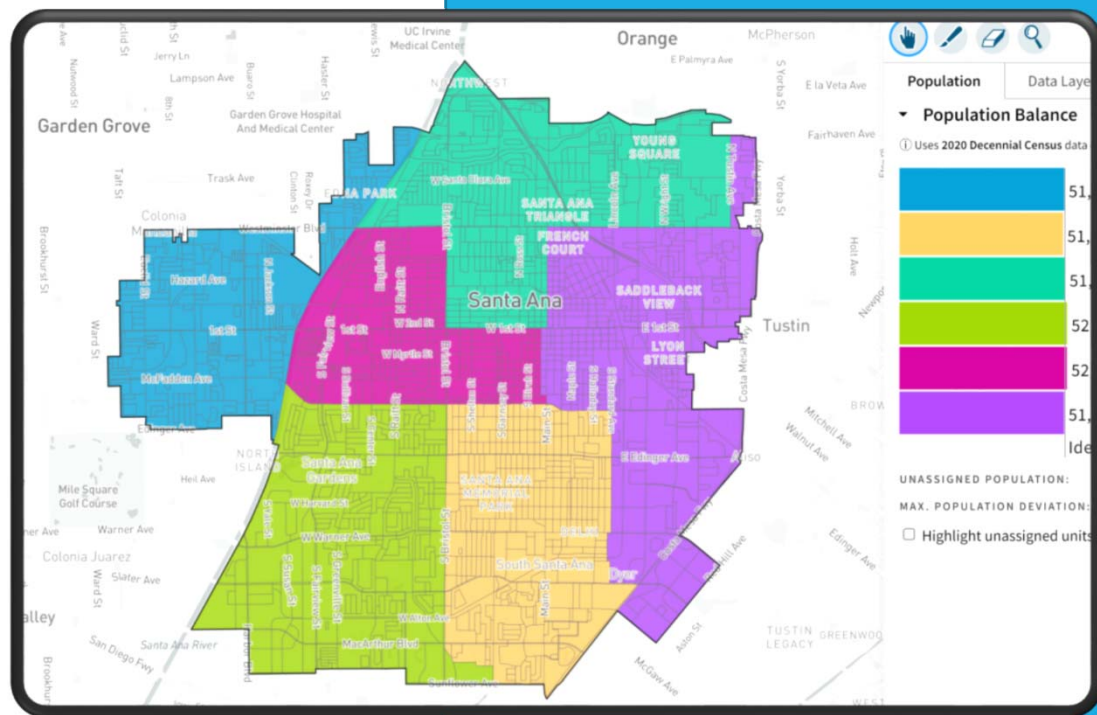

Releasing maps for feedback – today we will see plans to spark more public engagement.

Public Submissions

The City of Santa Ana City Council obtained public map submissions

- Use of the online mapping tool DistrictR to solicit input.
- Had 6 Community Workshops + additional community presentations
- Online training of DistrictR at each Community Workshop.
- 13 full citywide plans and 3 community of interest submissions.

Public Submissions

We have converted all full and partial plans by November 15th to our “Atlas” format which includes:

- *Cover page with full districting plan overview.*
- Data table with population, deviation, ethnic population, Citizen Voting Age Population (CVAP) Ethnicity and breakdowns for each district (numbered 1-6 for a complete plan)
- Individual district maps with street-details and data tables and charts.

Public Submissions

We have converted all full and partial plans, received by November 15th, to our “Atlas” format which includes:

- Cover page with full districting plan overview.
- *Data table with population, deviation, ethnic population, Citizen Voting Age Population (CVAP) Ethnicity and breakdowns for each district (numbered 1-6 for a complete plan)*
- Individual district maps with street-details and data tables and charts.

The image displays three overlapping sample pages from the "REDISTRICTING PARTNERS" Atlas for the City of Santa Ana. The pages show data tables for the 2020 Census and Citizen Voting Age Population (CVAP) for various districts. The tables are organized into columns for different districts and rows for different demographic categories. The data is presented in a clear, tabular format with headers and footers.

Public Submissions

We have converted all full and partial plans received by November 15th to our “Atlas” format which includes:

- Cover page with full districting plan overview.
- Data table with population, deviation, ethnic population, Citizen Voting Age Population (CVAP) Ethnicity and breakdowns for each district (numbered 1-6 for a complete plan)
- *Individual district maps with street-details and data tables and charts.*

Public Submissions

The Community of Interest maps drawn by the public and received by November 15th, were also converted to Atlas format.

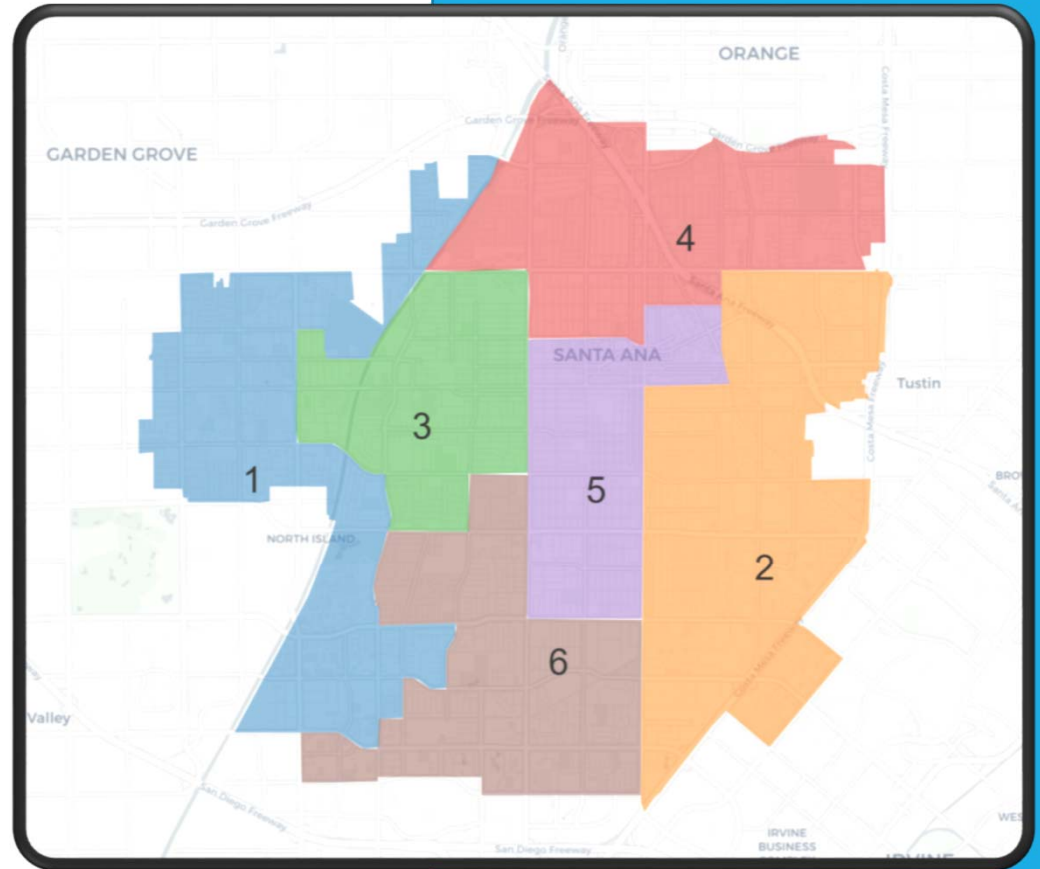

- Community of Interest submissions provided to commission with descriptions provided by the public.
- All COI submissions are available on DistrictR site with points of interest and descriptions.
- Communities of Interest used to develop draft plans based on commission direction.

Public Submissions

In addition to PDF maps of all submissions, there are also web maps provided.

These allow the user to zoom in to street level for a closer inspection.

Public Submissions

In addition to PDF maps of all submissions, there are also web maps provided.

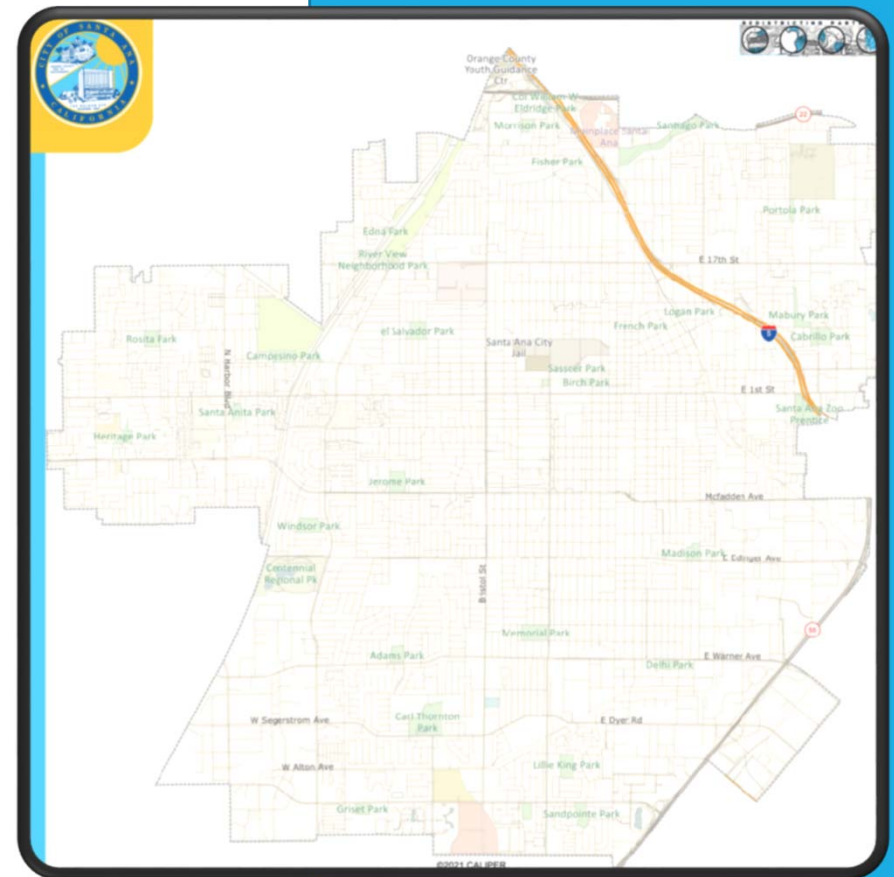

These allow the user to zoom in to street level for a closer inspection of where district lines are placed.

Placemats

The Community of Interest maps drawn by the public and received by staff are on the website

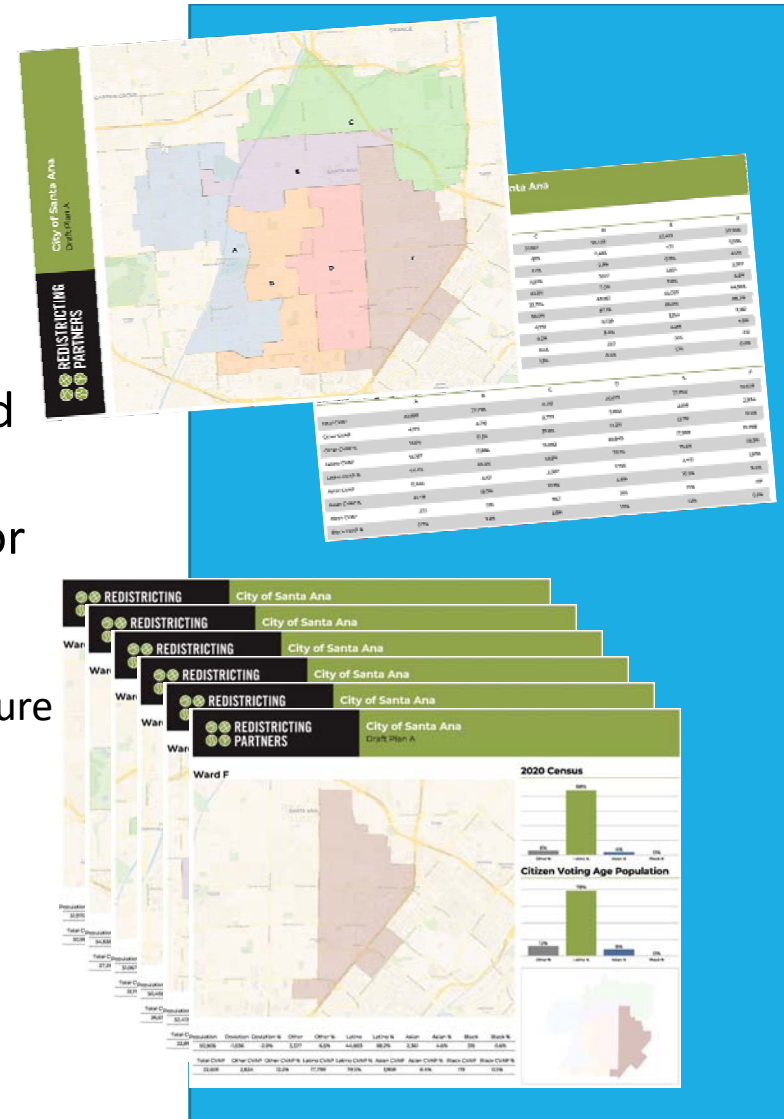

- Community of Interest submissions provided to commission with descriptions provided by the public.
- All COI submissions are available on DistrictR site with points of interest and descriptions.
- Communities of Interest used to develop draft plans based on commission direction.

Draft Plans A – C

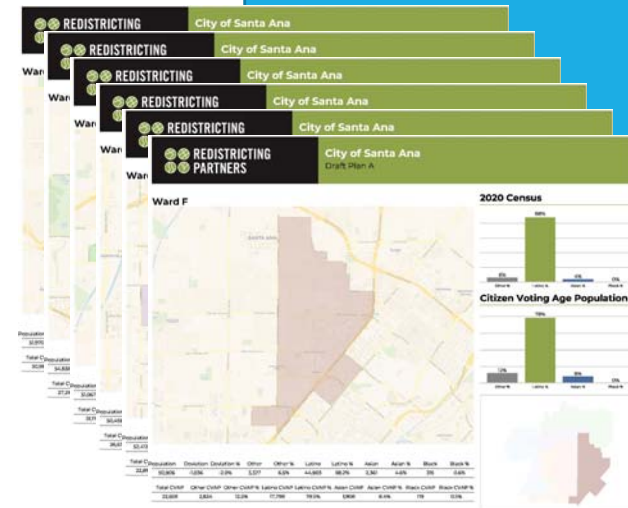

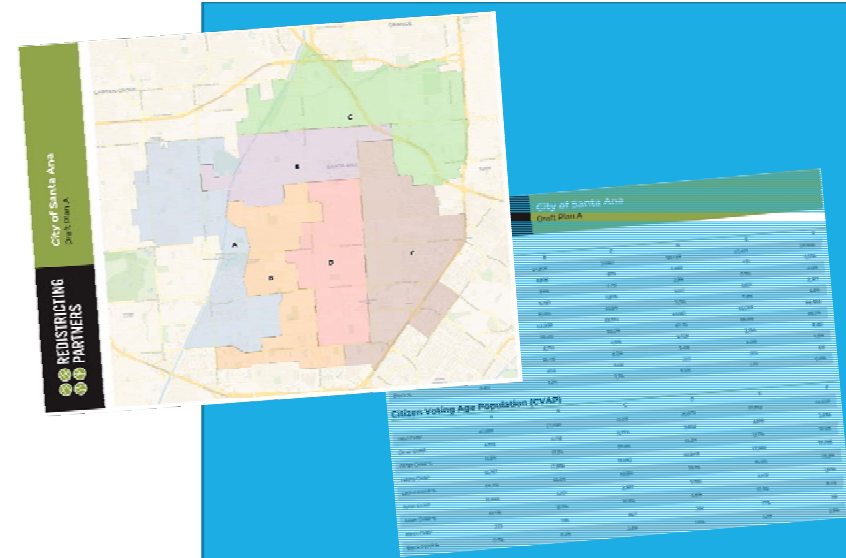

Commissioners were provided a packet with three consultant created plans based on COI testimony and traditional redistricting criteria. These maps were posted to the commission website for the public prior to Draft Map hearing.

- Districts are letters, not numbers. This is a temporary structure for identifying seats as the final draft plan is required to be numbered based on a formula in the charter.
- Each draft has been created with a less than 10% total deviation.

Draft Plan A

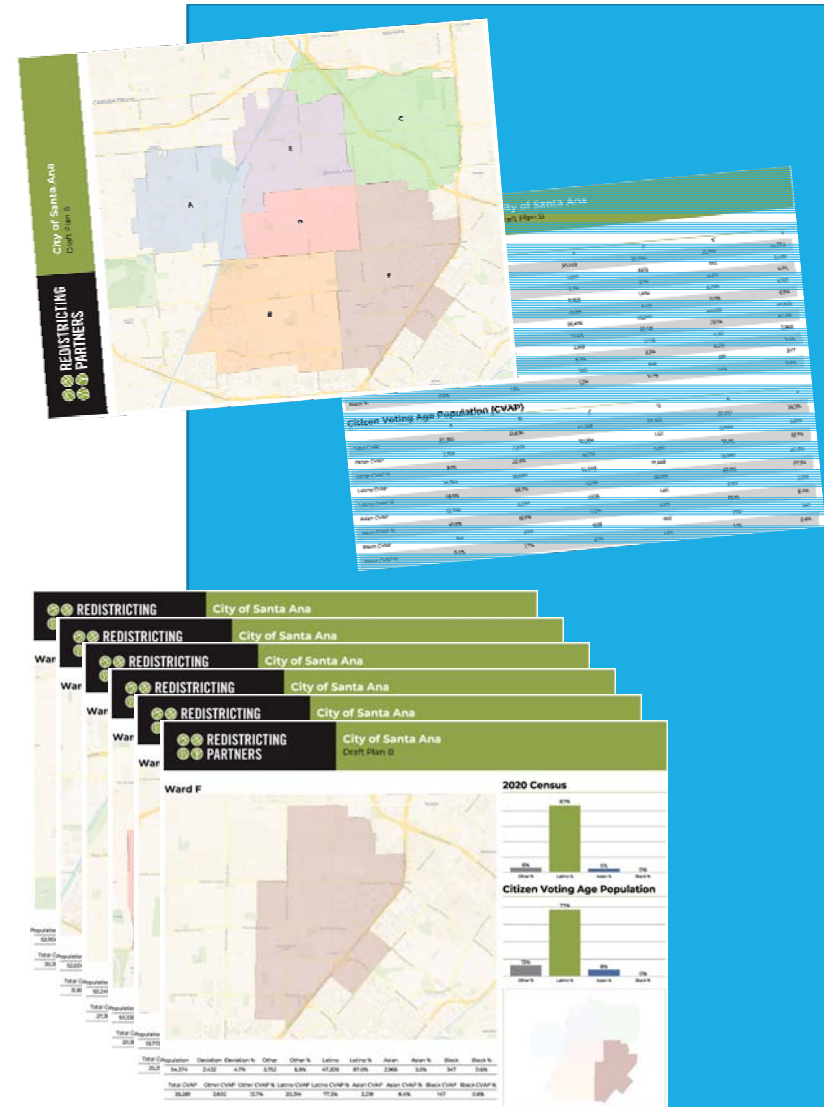

We have created draft plan A based on the current lines, adjusted for current 2020 population and traditional redistricting criteria.

Draft Plan B

We have created draft plans based on the traditional redistricting criteria and themes based on Community of Interest testimony.

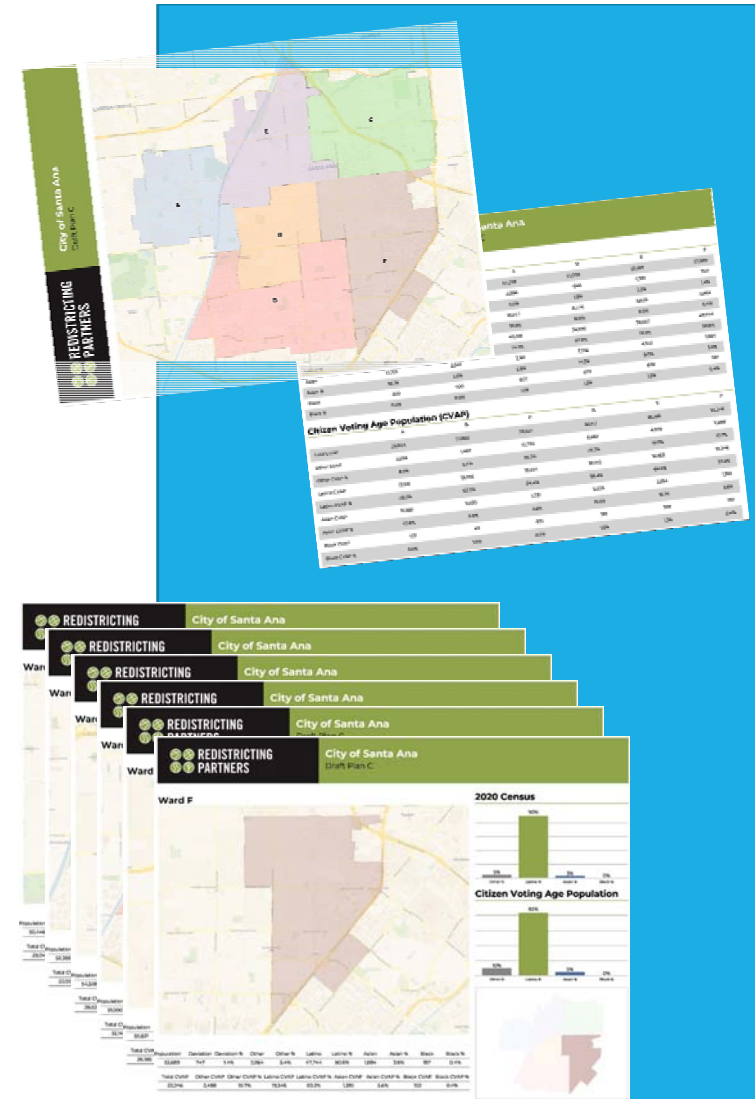

- Keep Redwood Shores together
- Draw district with Friendly acres, redwood village, split Stambaugh Hellter and portions of downtown.
- Include Farmhill and Stulsaft park in a single district
- Have Woodside Plaza and Palm Neighborhoods in a district
- Have Farmhill Canyon, and Edgewood Park in a single district
- Draw Seaport with Centennial and parts of Downtown
- Follows neighborhoods lines

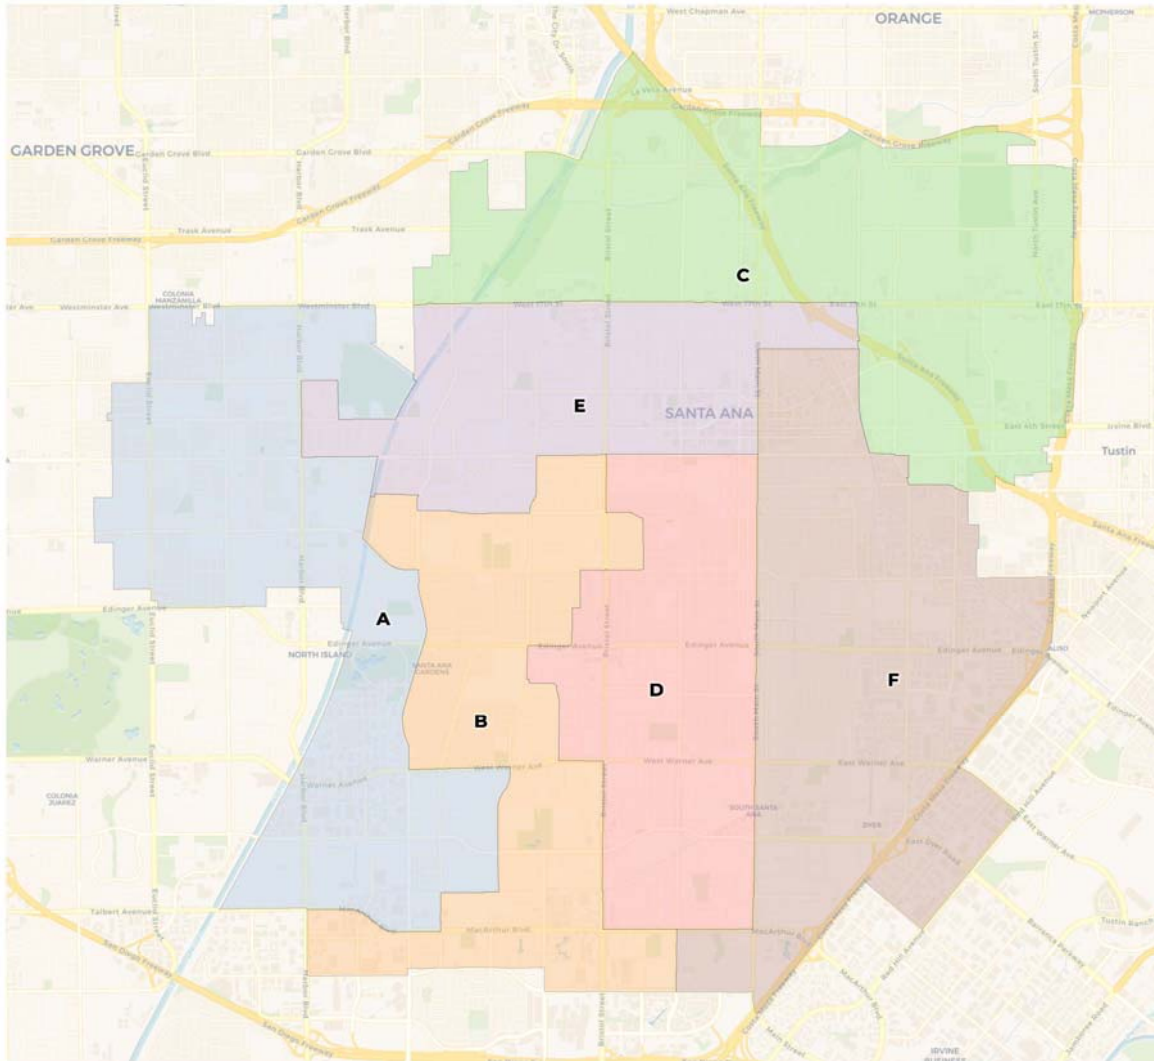

Draft Plan C

We have created draft plans based on the traditional redistricting criteria, themes based on Community of Interest testimony and amendments from the ARC.

- Have an amended Map C that includes two CVAP Minority Majority districts
- keeps district G as portrayed in Map C intact but also includes the Fernside area (referred as the spur area by ARC Member Gardner) using Alameda de Las Pulgas as a boundary towards the south western (bottom) boundary of district G
- keep as much of Redwood Oaks neighborhood together abutting Woodside road in a district if possible

Plan A

Plan meets traditional redistricting criteria and also achieves the following:

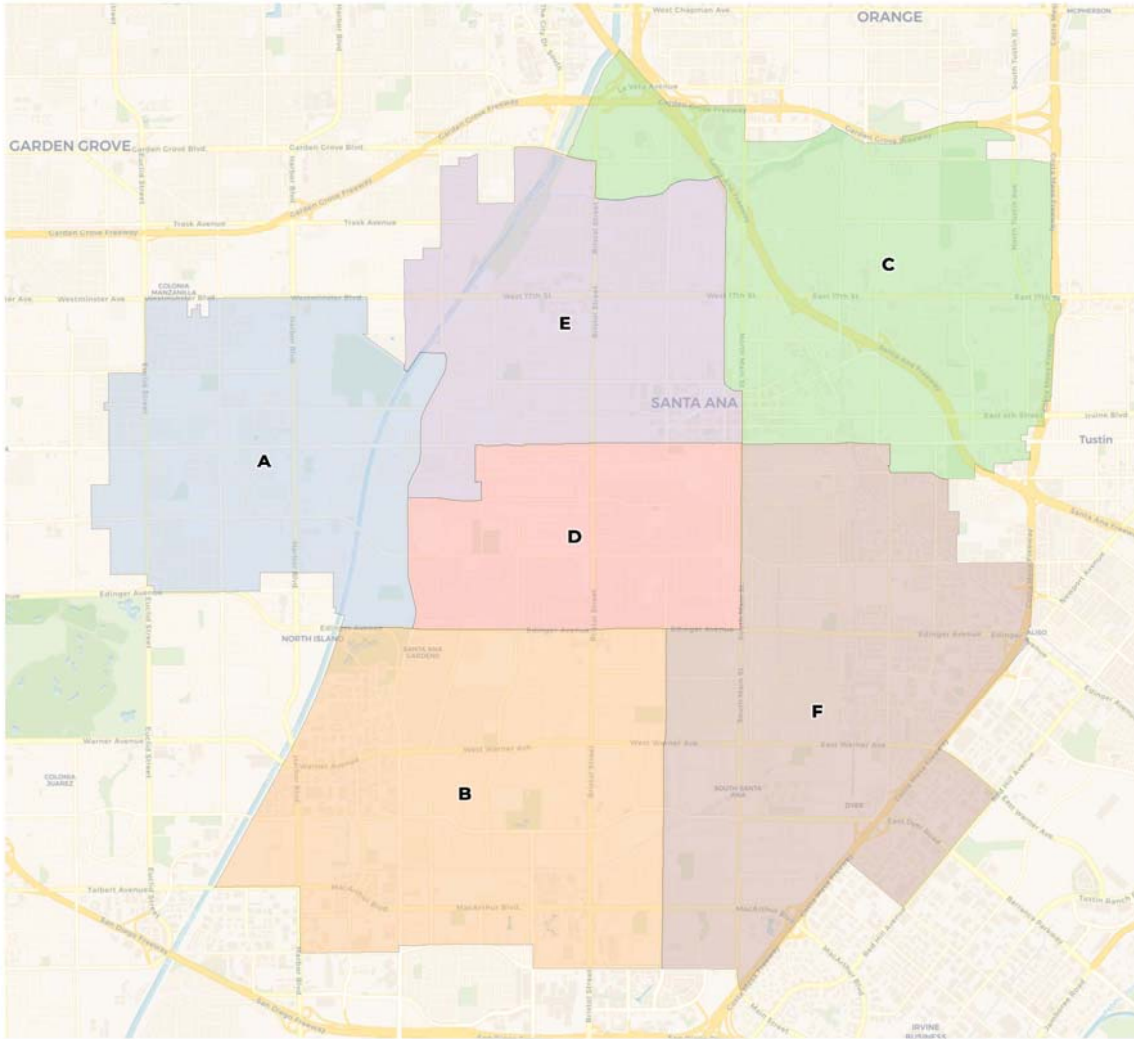

- Deviation of % 8.5
- Creates four districts that are 50%+ Latino Citizen Voting Age Population in “B”, “D”, “E” & “F”
- Creates one Asian Influence district 30%+ Citizen Voting Age Population in “A”

Plan A

Plan meets traditional redistricting criteria and also achieves the following:

- Uses existing lines as base
- Adjusts for population growth
- Follows major streets

Plan B

Plan meets traditional redistricting criteria and also achieves the following:

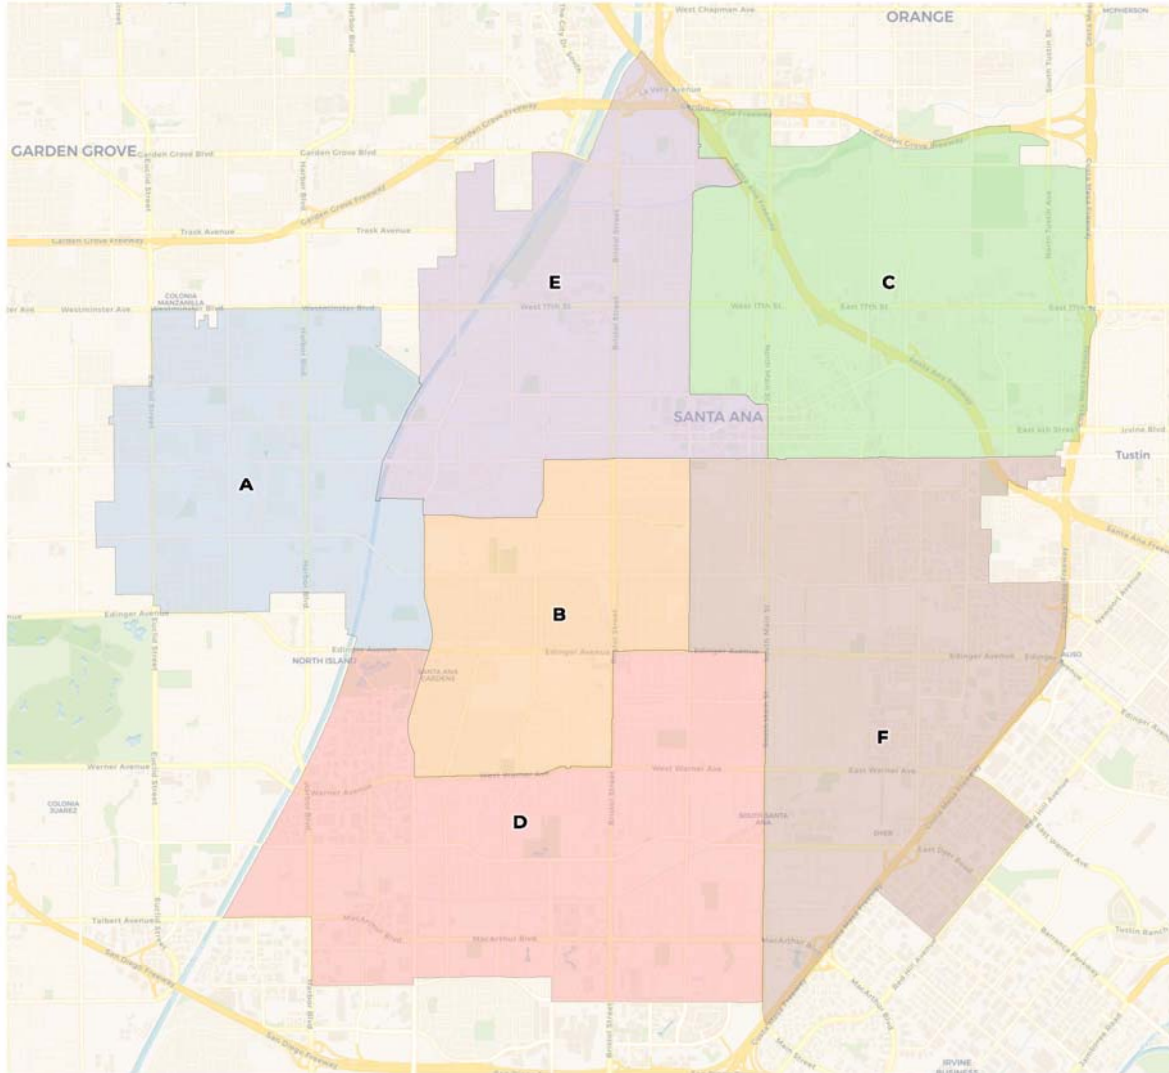

- Deviation of 8%
- Creates five districts that are 50%+ Latino Citizen Voting Age Population in "B", "C", "D", "E" & "F"
- Creates one Asian Influence district 30%+ Citizen Voting Age Population in "A"

Plan B

Plan meets traditional redistricting criteria and also achieves the following:

- Uses Community of Interest Testimony and Publicly submitted maps as base
- Keeps Santa Anita, Windsor Village whole,
- Follows West Edinger Avenue as a boundary.
- Keeps central Neighborhoods whole: Bella Vista and Mid-City

Plan C

Plan meets traditional redistricting criteria and also achieves the following:

- Deviation of % 7..9
- Creates five districts that are 50%+ Latino Citizen Voting Age Population in "B", "C", "D", "E" & "F"
- Creates one Asian Influence district 30%+ Citizen Voting Age Population in "A"
- Uses Plan C as a base

Plan C

Plan meets traditional redistricting criteria and also achieves the following:

- Uses Community of Interest Testimony and Publicly submitted maps as base
- Minimal NH line splits
- W Warner Avenue is border for District B
- E 1st Street is border for District C and E

Amendments to Plans

Changes to plans may need balancing and understanding of tradeoffs. Three types of changes.

- 1) Keeps within deviation and doesn't necessitate other changes.
- 2) Identifying a change and a possible tradeoff with that same district – a “one to one swap”
- 3) Identify a change and a set of districts that involves multiple districts – a “rotation”

Amendments to Plans

If there are proposed changes we can look at those individually and provide input on if they can be achieved easily or require more adjustments.

What's Next

- Official council drafts will be made public in advance of a citywide public draft feedback hearing.
- All council draft plans will go to a final plan selection hearing.
- Final Plan selection hearing will consider only draft plans that have been made public for seven days.
- *Numbering of districts is done at the end of the process by the city council using a formula of minimizing the number of residents who have to change district numbers.*

Amendments to Plans

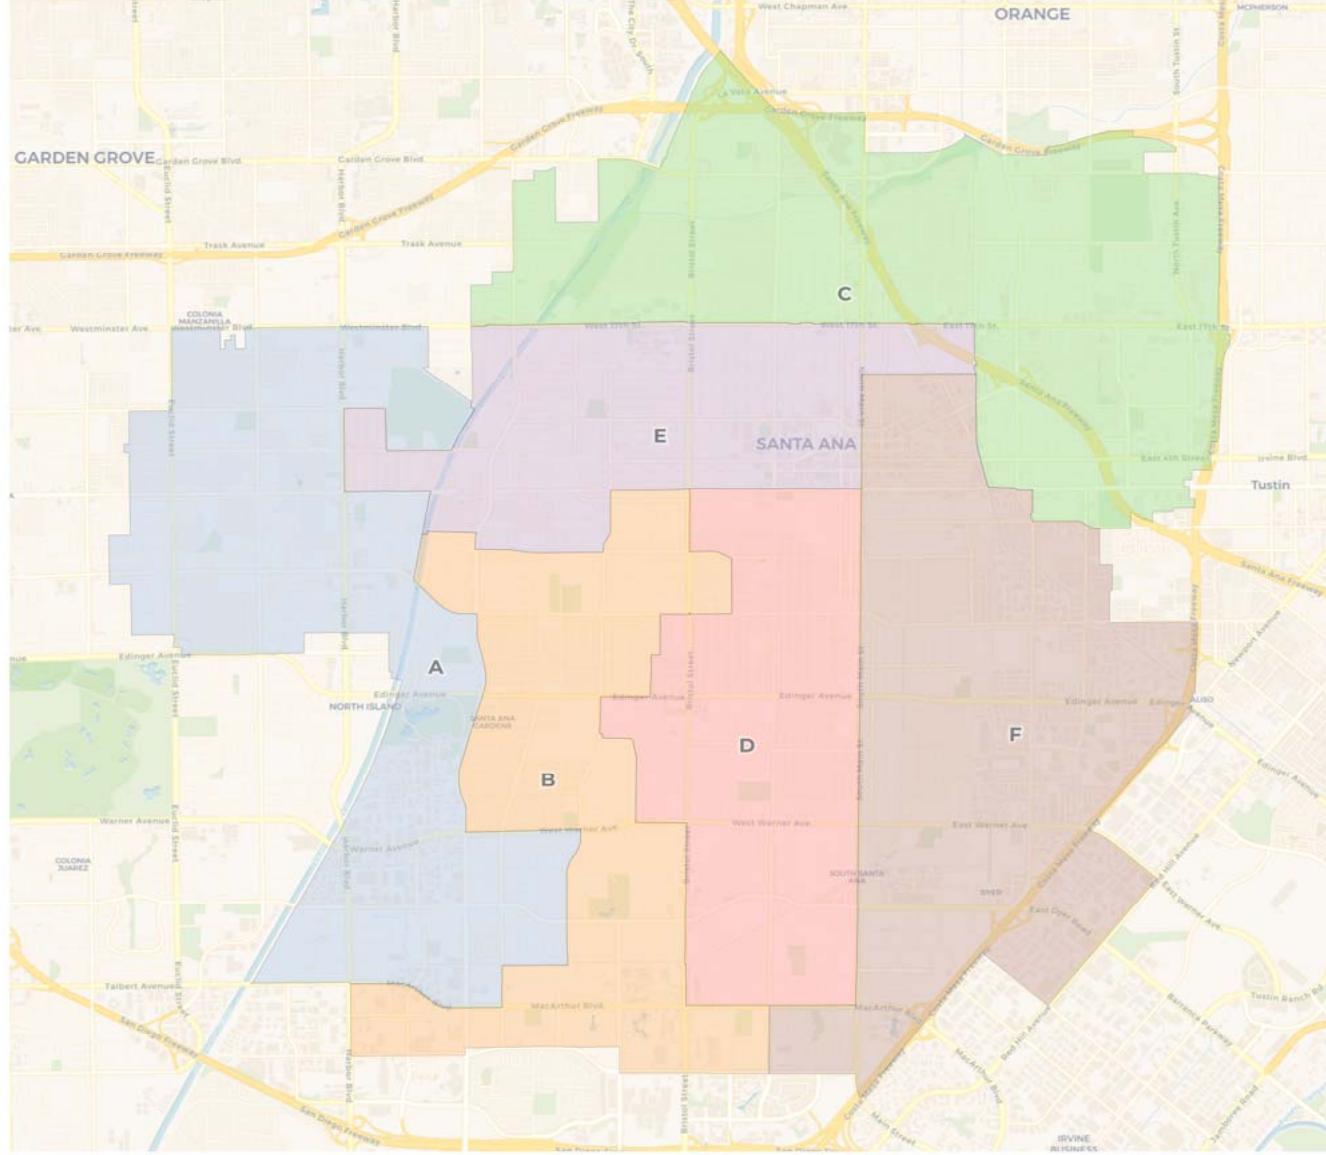

- Council will instruct Redistricting Partners to make additional amendments to plans
- Council can suggest a Redistricting Partners to draft a new map
- Council can instruct Redistricting Partners to uplift a community submitted plan
