COVID-19 Update  
City Manager's Office  
November 2, 2021

# What is a COVID-19 Vaccine Booster?

---

- A COVID-19 booster shot is an additional dose of a vaccine given after the protection by the original shot decreases over time.
- Normally boosters are administered after immunity from initial dose wanes.
- The booster is designed to help people maintain their immunity for longer.

# Who is Currently Eligible?

---

- People 65 years and older
- People aged 18 years and older:
  - With underlying medical conditions
  - Who live in long-term care settings
  - Who work or live in high risk settings
  - 2 months after receiving Johnson & Johnson
  - 6 months after receiving either Pfizer or Moderna

# Other Information

---

- It is safe for individuals to receive a COVID-19 vaccine booster or additional dose that is a different brand than the initial dose or doses.
- You are still fully vaccinated without a booster.

# Vaccine Survey for City Employees

---

COVID-19 Update  
City Manager's Office  
November 2, 2021

- 
- Human Resources shared a survey with City employees.
  - The two-question survey asks for employees to self-report their vaccination status and their bargaining group.
  - The survey closes this Friday.
