**Subject:** Agenda Item 3 - Homeless Update - Public Comment

I am reaching out to the city council today to make a plea for stricter laws regarding the homeless harassing, assaulting, and battering the citizens of Santa Ana. There are two particular homeless individuals who have been terrorizing our town. Most recently, on Sunday 1/16, a 5 year old child was hit in the head at Dunkin Donuts by a homeless man in an unprovoked attack. The mother called the police but nothing was done and the assailant was allowed to walk free down 17th street. This same individual has been reported to the police numerous times for the following incidents:

- Attacking a woman as she walked to her car (police were called and he was released 24 hours later)
- Leaping into oncoming traffic and lunging at cars as well as walking in the middle of the street blocking traffic
- Harassing patrons and business owners inside and outside restaurants by throwing food and drinks at them
- Pushing shopping carts into the street
- Walking around with no pants on and defecating on the street

There is another homeless individual who has been targeting the woman in north Santa Ana. We have called the police on him numerous times and again nothing is done or he is released within hours. This homeless man has done the following:

- Flashing his penis after coughing to get women's attention near the Santiago Park baseball field and bridge.
- Walking around Grand Ave with his pants down fully exposing his penis and backside (my 5 year old son witnessed this). I have personally seen this twice.
- Intimidating and assaulting women by purposefully crossing the street, running up to them, blocking their way and staring right in their face invading their personal space. The face he makes has been described as "demonic" and "expressing extreme anger." He gets nose-to-nose and completely terrifies the women.
- Chasing woman joggers and women on bicycles
- Destroying trees in the Big Lots parking lot
- Following women to their cars in the Big Lots parking lot and Albertsons parking lot
- Blocking Women's cars on Santa Clara and kicking their cars when they drive around him
- Throwing chairs at women's cars near Panda Express off Tustin and 17th

Every time someone has called the police, they say "our hands are tied" or "there's nothing we can do." Who is tying their hands? Who is allowing this to happen to our tax paying citizens? What will you do about it?

Sincerely,  
Terry Gonzalez  
Resident of Park Santiago
