Subject: Support for Map F; Proposed Redistricting Draft Plan F and Neighborhoods

To whom it may concern,

We have been proud residents of Washington Square for 35 years.

We support Map F; Proposed Redistricting Draft Plan F and Neighborhoods.hoods

Map F will join our neighborhood with the northern neighborhoods.

We have a long history of socializing with Floral Park and West Floral Park and we clearly share a community of interest. We wish our councilmember would have solicited our neighborhood's opinion on this important matter, but he has not reached out to us.

Thank you in advance for your attention to this important matter.

Best regard,
Richard W. and Tracey L. Conlogue

Hola alcalde sarmiento y concejales por favor vote

Encontra mapa F y mapa K

Mapa F y mapa K no reconocen las comunidades

De color de bajo ingresos y familias trabajadoras

Mapa F y mapa k solo toma las demandas y la consideración de los residentes de santa Ana que viven en el distrito sur y norte, que tienden a ser resistentes

Adinerados.

Subject: Coalición de Redistribución de Distritos de Santa Ana (SARC)

Buenas noches,

Señor alcalde y miembros del consejo de la ciudad de Santa Ana. Mi nombre es Elizabeth Cabello y he sido residente de Santa Ana por 9 años.

Vivo entre la calle Tercera & Flower donde las necesidades de mi comunidad son bastantes y entre ellas es ser representados

Por lo tanto, se que los distritos propuestos alrededor de mi comunidad por la Coalición de Redistribución de Distritos de Santa Ana representa a sus residentes porque

Respeto a mi comunidad y sus necesidades

Son mapas propuestos por la comunidad

Y considerada a las comunidades impactadas por la justicia ambiental y costo de vivienda

Realmente espero que usted y los concejales puedan escuchar la voz de la comunidad ya que nuestra ciudad ha sido una comunidad marginalizada por varios años. Nuestra ciudad merece cambios y claro la comunidad no espera a que haya cambios instantáneos pero si graduales. Pido y exijo de forma civilizada que se nos escuche a nosotros los inmigrantes, residentes de bajos ingresos, a la clase trabajadora, y a los grupos minoritarios. Recuerden Santa Ana está hecho de todas estas mezclas, gracias.

Sinceramente,
Elizabeth Cabello

Buenas noches,

Señor alcalde y miembros del consejo de la ciudad de Santa Ana. Mi nombre es Ariana Cabello y he sido residente de Santa Ana por 10 años. Les escribo cordialmente para discutir el punto #16 de la agenda. Vivo entre la calle 3RD & Flower y donde la mayoría de los residentes son individuos trabajadores, inmigrantes y/o hispanohablantes. Las necesidades de mi comunidad son bastantes y entre ellas está el hecho de no ser escuchados por nuestros representantes.

Por lo tanto, creo que los distritos propuestos alrededor de mi comunidad por la Coalición de Redistribución de Distritos de Santa Ana (SARC 1) respeta fielmente a mi comunidad y sus necesidades. Los mapas propuestos por la coalición defienden a las comunidades de interés y a los residentes de Santa Ana más vulnerables.

Respetuosamente,

Ariana Cabello, B.S.

Mayor Sarmiento and City Council Members
City of Santa Ana
20 Civic Center Plaza
Santa Ana, CA 92701

RE: Support to Adopt Santa Ana Redistricting Coalition (SARC) Proposed Maps

Dear Mayor Sarmiento and City Council Members,

Latino Health Access has been proudly working alongside community residents for over 27 years to improve the social determinants of health in our city. We provide services that address immediate health needs while providing information and facilitating opportunities to increase civic participation and engagement in decisions to improve those social determinants in the long term. The Redistricting process establishes the representation structure in our city for community residents to participate civically. It is crucial that the map adopted centers around and maintains areas in our city that have been historically excluded. **Therefore, we urge you to adopt one of the proposed maps by the Santa Ana Redistricting Coalition.**

Latino Health Access is a proud partner in the Santa Ana Redistricting Coalition (SARC), alongside Orange County Environmental Justice (OCEJ), Orange County Congregation Community Organization (OCCCO), and VietRISE. Centering the lived experiences and needs of low-income communities of color and working families, the SARC has pursued maps and other redistricting outcomes that maximize opportunities for year-round organizing and policy advocacy, working toward a city that treats everyone equitably and with justice. To promote greater community engagement in redistricting, SARC has (1) educated members and residents about redistricting, (2) created a space through which they identify and articulate communities of interest (COI) important to them, (3) mobilized community members to present testimony at public hearings, and (4) worked closely with them to create city redistricting maps that best address the needs of low-income communities of color and working families.

The maps proposed by the SARC acknowledge and take into account the communities of the interest that the community brought forward. Districts A, B, D, and F share largely the same configuration in both maps and maintain distinct communities of interest. As discussed in greater detail in the SARC map narratives, each of these communities have a series of interests and concerns largely unique to them. Characteristics include, to name a few, a high number of mobile home parks and shared restaurants and faith institutions in District A, more affluent and historic neighborhoods in District B, a high number of

Latino Health Access
450 W. Fourth Street, Suite 130
Santa Ana, CA 92701
714-542-7792
www.latinohhealthaccess.org

mobile home parks, and shared environmental justice concerns in District D, and low-income, mixed immigration status households facing environmental justice issues in District F. District D keeps the Sullivan Community and District F keeps the Delhi neighborhood intact. The configuration of SARC 1a and SARC 2a do differ when it comes to District E and C. In SARC 1a, the Central, Mid-City, and Pico-Lowell communities are kept together in District E, where the majority of residents in those communities are Low-income monolingual Spanish speakers. In SARC 1a, the SARC drew a configuration to uphold the input of residents in the southern district in Santa Ana, which tends to be affluent residents. District C and E in the SARC 2a configuration were primarily drawn in an effort to maintain contiguity and compact districts. **The proposed maps by the SARC accurately represent and thoughtfully consider the needs, concerns, and demands of low-income communities of color and working families, the heart of Santa Ana.**

On the other hand, the submitted Plan F and Plan K go against the culmination and collective effort of 6 months of engagement by community residents throughout the City of Santa Ana. Plan F and Plan K fail to acknowledge and respect the communities of interest of low-income communities of color and working families. Instead, Plan F and Plan K uphold the interest and demands of affluent families in southern and northern Santa Ana neighborhoods. Both plans divide the Sullivan community, divide the environmental justice corridor East of Main Street, and place the Delhi Community with the South Coast Metro area, diluting the voting power of low-income residents. Many residents from the southern Santa Ana neighborhoods have expressed their interest in maintaining a southern district, and to respect that, SARC 1a maintains a southern district, without sacrificing other neighborhoods and communities of interest like Plan F and K do.

The effects of the map that is adopted will be felt by our city's residents for the next ten years. In order to uphold the City's value of equity and make certain that residents that have been suffering the consequences of political disinvestment are represented, **we urge you to not consider Plan F and Plan K and instead consider one of the two maps proposed by the Santa Ana Redistricting Coalition.**

Sincerely,

Nancy Mejia, MPH, MSW

Dear Vincent Sarmiento and Council Members of Santa Ana CA

I am Mrs. Silvia Hernández, a long time resident of Santa Ana CA living in Eastside Neighborhood. I am part of the SARC and I support the Map F because is related with our community needs. We are working families who have impacted by the pandemic and that make our situation worse than ever before. Map F is considering all the needs in our community to have economic justice.

This is your opportunity to assure our future as a thriving city in this prosper county. Vote for the Map F.

In Solidarity,

[illegible]

Soy la Sra. Silvia Hernández, residente desde hace mucho tiempo de Santa Ana CA y vivo en el vecindario Eastside. Soy parte de la SARC y apoyo el Mapa F porque está relacionado con las necesidades de nuestra comunidad. Somos familias trabajadoras que se han visto afectadas por la pandemia y eso hace que nuestra situación sea peor que nunca. Map F está considerando todas las necesidades de nuestra comunidad para tener justicia económica.

Esta es su oportunidad de asegurar nuestro futuro como una ciudad próspera en este próspero condado. Vota por el Mapa F

Atentamente,

Silvia Hernández

Be Mayor council members my name is Teresa Cuin resident of Santa Ana for 35 years I support the maps proposed by the Santa Ana Redistricting Coalition because
Respect communities of interest in Santa Ana
They are maps proposed by the community for the community
Take into consideration the interests and needs impact them for environmental justice and the cost of housing.
That's why I'm against MAP "F"
Does not recognize the communities of interest of low-income families of color and working families
They only take the demands of the residents of the south and north of Santa Ana, where people with more income and privileges live.
They divide the community of Sullivan and a corridor that is affected by the same environmental problems
Please support the SARC map

Subject: Public comment for district map

Good afternoon dear mayor Vicente Sarmiento city council members,

My name is Mayra L Lopez Monroy and I have been a Santa Ana resident for a year and a half, however, after the year 2001, I have spent most of my days working and attending college at this beautiful city.

I support the map SARC 1 as the new district map because our community will be better represented accordingly. SARC 1 map is designed by the community for the community.

I'm against map "F" because it divides the community unequally, politically, socially and environmentally. It does not accommodate to the needs of the minorities but rather to those residents with higher incomes by giving them higher political representation. It does not distribute political representation equally, and it does not provide lower income minorities with much needed resources such as low income housing, green spaces and effective environmental measures to protect my community.

I support the map SARC 1 as the new district map.

Thank you!

Mayra L López Monroy

Buenas noches Sr. Alcalde y miembros del consejo de la ciudad. mi nombre es rosa Ramírez y he sido residente de Santa Ana por 15 años. Yo apoyo los mapas propuestos por la coalición de Redistribución de distritos de Santa Ana porque • Respetan a las comunidades de interés en Santa Ana son mapas propuestos por la comunidad para la comunidad Toma en consideración los intereses, necesidades y demandas de las comunidades impactadas por la justicia ambiental de avena Por eso estamos en contra del mapa F. Mapa F solo color de bajos ingresos y familias trabajadoras Toma las demandas y la consideración de los residentes de Santa Ana que viven en el distrito norte y sur, que tienden a ser con residentes adinerados Divide a la comunidad de Sullivan y un corredor que se ve afectado por los mismos problemas ambientales, como la contaminación por plomo en el suelo y la contaminación en el lado este de la ciudad

Subject: RE: Redistribución de los mapas

Google Translate:

My name is Araceli Robles I live between Main and First streets I have 21 years here in Santa Ana I am supporting the map proposed by the SARC 1 coalition this map reflects what we need as a community since it was developed with the community at the work table and that's what we need in the next 10 years here in Santa Ana. We are still in a pandemic and we don't know the effects that will be had in the years to come!! This is very distressing!! the SARC 2 will help us to continue moving forward with our lives little by little and we secure some resources that we will need !! Not in its entirety. But it is better to have something safe to cover our immediate necessities. You have to think about the community and stop thinking only about some groups that are supporting councilmembers to move up in positions or secure their seats in the council I appreciate your attention Araceli Robles Thank you

Subject: Redistribución de los mapas

Mi nombres es Araceli Robles vivo entre las calles Main y First tengo 21 años Aquí en Santa Ana estoy apoyando el mapa propuesto por la coalición SARC 1 este mapa refleja lo que necesitamos como comunidad ya que fue desarrollado con la comunidad en la mesa de trabajo y eso es lo que necesitamos en los próximos 10 años aquí en Santa Ana . Todavía estamos en pandemia y no sabemos los efectos que se tendrán en los años que vienen !! Esto es muy angustiante !! el SARC 2 ayudará a que poco a poco se continúe adelante con nuestras vidas y aseguramos algunos recursos que necesitaremos !! No en su totalidad. Pero es mejor tener algo seguro para cubrir nuestras necesidades inmediatas . Se tiene que pensar en la comunidad y dejar de pensar sólo en algunos grupos que están apoyando a concejales a subir de puesto o asegurar sus sillas en el concilio agradezco su atención Araceli Robles Gracias

Subject: Next City Council Meeting – Public Hearing Regarding Redistricting Ward Boundaries

I have reviewed the City Council identified four maps for further review along with SARC1a and SARC2a. What is surprising to me, and hopefully to you as well, is if I understand the City's published neighborhood boundaries correctly, it looks like ***all six maps split up multiple neighborhoods***. Anywhere from three to as many as six neighborhoods. These are all identified in the COMPARISON OF MAPS table on the page 3.

One recurring comment I heard from most, if not all councilmembers and several residents, was the desire to have only one councilmember represent their neighborhood. I created map 115467 (attached) to accomplish the objective of having **NO NEIGHBORHOODS SPLIT**. All six maps of the City, and mine, are based on the ethnic breakdown of 276,553 Latinos/Hispanics, 37,484 Asians, 29,445 Whites and 2,818 Blacks (Redistricting Partners terminology and data). While map 115467 solves the neighborhood issue, it does create another issue: that of balancing all wards to have a maximum 10% delta.

So, the decision comes down to splitting up neighborhoods or exceeding the 10% threshold. I believe map 115467 provides a better starting point for this discussion.

Thank you for your thoughtful consideration,

Dale A Helvig
