

AGREEMENT WITH HUNTER CONSULTING, INC., DBA HCI ENVIRONMENTAL & ENGINEERING TO PROVIDE ON-CALL TRASH, WEEDS, RUBBISH & SANITATION ABATEMENT AND BOARD-UP SERVICES FOR THE CITY OF SANTA ANA

THIS AGREEMENT is made and entered into on this 21st day of June 2022, by and between Hunter Consulting, Inc., a California corporation dba HCI Environmental & Engineering (“Contractor”), and the City of Santa Ana, a charter city and municipal corporation organized and existing under the Constitution and laws of the State of California (“City”).

RECITALS

- A. On April 11, 2022, the City issued Request for Proposal No. 22-068 (“RFP”), by which it sought a qualified contractor to provide on-call trash, weeds, rubbish & sanitation abatement and board-up services at various sites citywide on an as needed basis for the City’s Public Works Agency.
- B. Contractor submitted a responsive proposal that was among those selected by the City. Contractor represents that it is able and willing to provide the services described in the scope of work that was included in RFP 22-068.
- C. In undertaking the performance of this Agreement, Contractor represents that it is knowledgeable in its field and that any services performed by Contractor under this Agreement will be performed in compliance with such standards as may reasonably be expected from a professional consulting firm in the field.

NOW THEREFORE, in consideration of the mutual and respective promises, and subject to the terms and conditions hereinafter set forth, the parties agree as follows:

1. SCOPE OF SERVICES

On an on-call basis, and at the City’s sole discretion, Contractor shall perform the services described in the scope of work that was included in RFP No. 22-068, which is attached as **Exhibit A**, and as more specifically delineated in Contractor’s proposal, which is attached as **Exhibit B** and incorporated in full.

2. COMPENSATION

- a. City neither warrants nor guarantees any minimum or maximum compensation to Contractor under this Agreement. Contractor shall be paid only for actual services performed under this Agreement at the rates and charges identified in **Exhibit C**. Contractor is one of three (3) contractors selected to provide demolition services on an on-call basis under RFP 22-068. The total compensation for these services provided by all such contractors selected under RFP 22-068 shall not exceed the shared aggregate amount of Two Hundred Twenty-Five Thousand Dollars and Zero Cents (**\$225,000**) during the term of the Agreement, including any extension periods.
- b. Payment by City shall be made within 45 days (forty-five) days following receipt of proper

invoice evidencing work performed, subject to City accounting procedures. Payment need not be made for work which fails to meet the standards of performance set forth in the Recitals which may reasonably be expected by City.

3. TERM

This Agreement shall commence on July 1, 2022 and terminate on June 30, 2025, unless terminated earlier in accordance with Section 16, below.

4. PREVAILING WAGES

Contractor is aware of the requirements of California Labor Code Section 1720, et seq., and 1770, et seq., as well as California Code of Regulations, Title 8, Section 16000, et seq., ("Prevailing Wage Laws"), which require the payment of prevailing wage rates and the performance of other requirements on "public works" and "maintenance" projects. If the services being performed are part of an applicable "public works" or "maintenance" project, as defined by the Prevailing Wage Laws, and the total compensation is \$1,000 or more, Contractor agrees to fully comply with such Prevailing Wage Laws. Contractor shall defend, indemnify and hold the City, its elected officials, officers, employees and agents free and harmless from any claim or liability arising out of any failure or alleged failure to comply with the Prevailing Wage Laws.

5. INDEPENDENT CONTRACTOR

Contractor shall, during the entire term of this Agreement, be construed to be an independent contractor and not an employee of the City. This Agreement is not intended nor shall it be construed to create an employer-employee relationship, a joint venture relationship, or to allow the City to exercise discretion or control over the professional manner in which Contractor performs the services which are the subject matter of this Agreement; however, the services to be provided by Contractor shall be provided in a manner consistent with all applicable standards and regulations governing such services. Contractor shall pay all salaries and wages, employer's social security taxes, unemployment insurance and similar taxes relating to employees and shall be responsible for all applicable withholding taxes.

6. OWNERSHIP OF MATERIALS

This Agreement creates a non-exclusive and perpetual license for City to copy, use, modify, reuse, or sublicense any and all copyrights, designs, and other intellectual property embodied in plans, specifications, studies, drawings, estimates, and other documents or works of authorship fixed in any tangible medium of expression, including but not limited to, physical drawings or data magnetically or otherwise recorded on computer diskettes, which are prepared or caused to be prepared by Contractor under this Agreement ("Documents & Data"). Contractor shall require all subcontractors to agree in writing that City is granted a non-exclusive and perpetual license for any Documents & Data the subcontractor prepares under this Agreement. Contractor represents and warrants that Contractor has the legal right to license any and all Documents & Data. Contractor makes no such representation and warranty in regard to Documents & Data which were provided to Contractor by the City. City shall not be limited in any way in its use of the Documents and Data at any time, provided that any such use not within the purposes intended by this Agreement shall be at City's sole risk.

7. INSURANCE

Prior to undertaking performance of work under this Agreement, Contractor shall maintain and shall require its subcontractors, if any, to obtain and maintain insurance as described below:

a. Minimum Scope and Limit of Insurance

1. **Commercial General Liability (CGL):** Insurance Services Office Form CG 00 01 covering CGL on an “occurrence” basis, including products and completed operations, property damage, bodily injury and personal & advertising injury with limits no less than **\$1,000,000** per occurrence. If a general aggregate limit applies, either the general aggregate limit shall apply separately to this project/location (ISO CG 25 03 or 25 04) or the general aggregate limit shall be twice the required occurrence limit.
2. **Automobile Liability:** ISO Form Number CA 00 01 covering any auto (Code 1), or if Contractor has no owned autos, hired, (Code 8) and non-owned autos (Code 9), with a limit no less than **\$1,000,000** per accident for bodily injury and property damage.
3. **Workers’ Compensation:** as required by the State of California, with Statutory Limits, and Employer’s Liability Insurance with limit of no less than **\$1,000,000** per accident for bodily injury or disease.
4. **Broader Coverage:** if the Contractor maintains broader coverage and/or higher limits than the minimums shown above, the City requires and shall be entitled to the broader coverage and/or the higher limits maintained by the Contractor. Any available insurance proceeds in excess of the specified minimum limits of insurance and coverage shall be available to the City.

b. Other Insurance Provisions

1. **Additional Insured Status:** The City, its officers, officials, employees, and volunteers are to be covered as additional insureds on the CGL policy with respect to liability arising out of work or operations performed by or on behalf of the Contractor including materials, parts, or equipment furnished in connection with such work or operations. General liability coverage can be provided in the form of an endorsement to the Contractor’s insurance (at least as broad as ISO Form CG 20 10 11 85 or if not available, through the addition of **both** CG 20 10, CG 20 26, CG 20 33, or CG 20 38; **and** CG 20 37 if a later edition is used).
2. **Primary Coverage:** For any claims related to this contract, the Contractor’s insurance coverage shall be primary coverage at least as broad as ISO CG 20 01 04 13 as respects the City, its officers, officials, employees, and

volunteers. Any insurance or self-insurance maintained by the City, its officers, officials, employees, or volunteers shall be excess of the Contractor's insurance and shall not contribute with it.

3. **Notice of Cancellation:** Each insurance policy required above shall provide that coverage shall not be canceled, except with notice to the City.
4. **Waiver of Subrogation:** Contractor hereby grants to City a waiver of any right to subrogation that any insurer of said Contractor may acquire against the City by virtue of the payment of any loss under such insurance. Contractor agrees to obtain any endorsement that may be necessary to affect this waiver of subrogation, but this provision applies regardless of whether or not the City has received a waiver of subrogation endorsement from the insurer.
5. **Self-Insured Retentions:** Self-insured retentions must be declared to and approved by the City. The City may require the Contractor to purchase coverage with a lower retention or provide proof of ability to pay losses and related investigations, claim administration, and defense expenses within the retention. The policy language shall provide, or be endorsed to provide, that the self-insured retention may be satisfied by either the named insured or City.
6. **Acceptability of Insurers:** Insurance is to be placed with insurers authorized to conduct business in the state with a current A.M. Best's rating of no less than A:VII, unless otherwise acceptable to the City.
7. **Verification of Coverage:** Contractor shall furnish the City with original Certificates of Insurance including all required amendatory endorsements (or copies of the applicable policy language effecting coverage required by this clause) and a copy of the Declarations and Endorsement Page of the CGL policy listing all policy endorsements to City before work begins. However, failure to obtain the required documents prior to the work beginning shall not waive the Contractor's obligation to provide them.

The City reserves the right to require complete, certified copies of all required insurance policies, including endorsements required by these specifications, at any time.

8. **Subcontractors:** Contractor shall require and verify that all subcontractors maintain insurance meeting all the requirements stated herein, and Contractor shall ensure that City is an additional insured on insurance required from subcontractors.

9. **Special Risks or Circumstances:** City reserves the right to modify these requirements, including limits, based on the nature of the risk, prior experience, insurer, coverage, or other special circumstances.

8. INDEMNIFICATION

Contractor agrees to defend, and shall indemnify and hold harmless the City, its officers, agents, employees, contractors, special counsel, and representatives from liability: (1) for personal injury, damages, just compensation, restitution, judicial or equitable relief arising out of claims for personal injury, including death, and claims for property damage, which may arise from the negligent operations of the Contractor, its subcontractors, agents, employees, or other persons acting on its behalf which relates to the services described in section 1 of this Agreement; and (2) from any claim that personal injury, damages, just compensation, restitution, judicial or equitable relief is due by reason of the terms of or effects arising from this Agreement. This indemnity and hold harmless agreement applies to all claims for damages, just compensation, restitution, judicial or equitable relief suffered, or alleged to have been suffered, by reason of the events referred to in this Section or by reason of the terms of, or effects, arising from this Agreement. The Contractor further agrees to indemnify, hold harmless, and pay all costs for the defense of the City, including fees and costs for special counsel to be selected by the City, regarding any action by a third party challenging the validity of this Agreement, or asserting that personal injury, damages, just compensation, restitution, judicial or equitable relief due to personal or property rights arises by reason of the terms of, or effects arising from this Agreement. City may make all reasonable decisions with respect to its representation in any legal proceeding. Notwithstanding the foregoing, to the extent Contractor's services are subject to Civil Code Section 2782.8, the above indemnity shall be limited, to the extent required by Civil Code Section 2782.8, to claims that arise out of, pertain to, or relate to the negligence, recklessness, or willful misconduct of the Contractor.

9. INTELLECTUAL PROPERTY INDEMNIFICATION

Contractor shall defend and indemnify the City, its officers, agents, representatives, and employees against any and all liability, including costs, for infringement of any United States' letters patent, trademark, or copyright infringement, including costs, contained in the work product or documents provided by Contractor to the City pursuant to this Agreement.

10. RECORDS

Contractor shall keep records and invoices in connection with the work to be performed under this Agreement. Contractor shall maintain complete and accurate records with respect to the costs incurred under this Agreement and any services, expenditures, and disbursements charged to the City for a minimum period of three (3) years, or for any longer period required by law, from the date of final payment to Contractor under this Agreement. All such records and invoices shall be clearly identifiable. Contractor shall allow a representative of the City to examine, audit, and make transcripts or copies of such records and any other documents created pursuant to this Agreement during regular business hours. Contractor shall allow inspection of all work, data, documents, proceedings, and activities related to this Agreement for a period of three (3) years from the date of final payment to Contractor under this Agreement.

11. CONFIDENTIALITY

If Contractor receives from the City information which due to the nature of such information is reasonably understood to be confidential and/or proprietary, Contractor agrees that it shall not use or disclose such information except in the performance of this Agreement, and further agrees to exercise the same degree of care it uses to protect its own information of like importance, but in no event less than reasonable care. "Confidential Information" shall include all nonpublic information. Confidential information includes not only written information, but also information transferred orally, visually, electronically, or by other means. Confidential information disclosed to either party by any subsidiary and/or agent of the other party is covered by this Agreement. The foregoing obligations of non-use and nondisclosure shall not apply to any information that (a) has been disclosed in publicly available sources; (b) is, through no fault of the Contractor disclosed in a publicly available source; (c) is in rightful possession of the Contractor without an obligation of confidentiality; (d) is required to be disclosed by operation of law; or (e) is independently developed by the Contractor without reference to information disclosed by the City.

12. CONFLICT OF INTEREST CLAUSE

Contractor covenants that it presently has no interests and shall not have interests, direct or indirect, which would conflict in any manner with performance of services specified under this Agreement.

13. NON-DISCRIMINATION

Contractor shall not discriminate because of race, color, creed, religion, sex, marital status, sexual orientation, gender identity, gender expression, gender, medical conditions, genetic information, or military and veteran status, age, national origin, ancestry, or disability, as defined and prohibited by applicable law, in the recruitment, selection, teaching, training, utilization, promotion, termination or other employment related activities or any services provided under this Agreement. Contractor affirms that it is an equal opportunity employer and shall comply with all applicable federal, state and local laws and regulations.

14. EXCLUSIVITY AND AMENDMENT

This Agreement represents the complete and exclusive statement between the City and Contractor, and supersedes any and all other agreements, oral or written, between the parties. In the event of a conflict between the terms of this Agreement and any attachments hereto, the terms of this Agreement shall prevail. This Agreement may not be modified except by written instrument signed by the City and by an authorized representative of Contractor. The parties agree that any terms or conditions of any purchase order or other instrument that are inconsistent with, or in addition to, the terms and conditions hereof, shall not bind or obligate Contractor or the City. Each party to this Agreement acknowledges that no representations, inducements, promises or agreements, orally or otherwise, have been made by any party, or anyone acting on behalf of any party, which is not embodied herein.

15. ASSIGNMENT

Inasmuch as this Agreement is intended to secure the specialized services of Contractor,

Contractor may not assign, transfer, delegate, or subcontract any interest herein without the prior written consent of the City and any such assignment, transfer, delegation or subcontract without the City's prior written consent shall be considered null and void. Nothing in this Agreement shall be construed to limit the City's ability to have any of the services which are the subject to this Agreement performed by City personnel or by other contractors retained by City.

16. TERMINATION

This Agreement may be terminated by the City upon thirty (30) days written notice of termination. In such event, Contractor shall be entitled to receive and the City shall pay Contractor compensation for all services performed by Contractor prior to receipt of such notice of termination, subject to the following conditions:

- a. As a condition of such payment, the Executive Director may require Contractor to deliver to the City all work product(s) completed as of such date, and in such case such work product shall be the property of the City unless prohibited by law, and Contractor consents to the City's use thereof for such purposes as the City deems appropriate.
- b. Payment need not be made for work which fails to meet the standard of performance specified in the Recitals of this Agreement.

17. WAIVER

No waiver of breach, failure of any condition, or any right or remedy contained in or granted by the provisions of this Agreement shall be effective unless it is in writing and signed by the party waiving the breach, failure, right or remedy. No waiver of any breach, failure or right, or remedy shall be deemed a waiver of any other breach, failure, right or remedy, whether or not similar, nor shall any waiver constitute a continuing waiver unless the writing so specifies.

18. JURISDICTION - VENUE

This Agreement has been executed and delivered in the State of California and the validity, interpretation, performance, and enforcement of any of the clauses of this Agreement shall be determined and governed by the laws of the State of California. Both parties further agree that Orange County, California, shall be the venue for any action or proceeding that may be brought or arise out of, in connection with or by reason of this Agreement.

19. PROFESSIONAL LICENSES

Contractor shall, throughout the term of this Agreement, maintain all necessary licenses, permits, approvals, waivers, and exemptions necessary for the provision of the services hereunder and required by the laws and regulations of the United States, the State of California, the City of Santa Ana and all other governmental agencies. Contractor shall notify the City immediately and in writing of its inability to obtain or maintain such permits, licenses, approvals, waivers, and exemptions. Said inability shall be cause for termination of this Agreement.

20. MISCELLANEOUS PROVISIONS

- a. Each undersigned represents and warrants that its signature herein below has the power, authority and right to bind their respective parties to each of the terms of this Agreement, and shall indemnify City fully, including reasonable costs and attorney's fees, for any injuries or damages to City in the event that such authority or power is not, in fact, held by the signatory or is withdrawn.
- b. All Exhibits referenced herein and attached hereto shall be incorporated as if fully set forth in the body of this Agreement.

21. NOTICE

Any notice, tender, demand, delivery, or other communication pursuant to this Agreement shall be in writing and shall be deemed to be properly given if delivered in person or mailed by first class or certified mail, postage prepaid, or sent by fax or other telegraphic communication in the manner provided in this Section, to the following persons:

EXHIBIT A

Appendix -VII ATTACHMENT 1 SCOPE OF WORK

Board Up Procedures:

The USFA National Arson Prevention Initiative Board Up Procedures is incorporated herein by reference and are hereby accepted as Reference Specifications. These Reference Specifications are intended to govern certain construction materials, methods, and details with some additional modification herein.

Materials List and Specifications

SECURITY MEASURES

1. All openings in the basement, crawl spaces, garages, first floor doors and windows, and any point of entry accessible from a porch, fire escape or other potential climbing point shall be barricaded with plywood, 2x4 braces, carriage bolt sets, specialized head/drive screws, and nails, unless stated otherwise.

NOTE: General contractor screws, particleboard, wafer board, Masonite, or other similar material shall NOT be used for purposes of boarding-up a building.

2. Garage Doors and Openings at least 10' from ground level which are not accessible from a porch, fire escape, roof, or other climbing point can be secured with nails every 12" around the perimeter. For all openings, the plywood should be fitted so that it rests snugly against the exterior frame, butting up to the siding on wood frame buildings and up to the brick molding edge on brick buildings. It may be necessary to remove the staff bead so this fit can be flush and tight.
3. The structure shall be posted with a NO TRESPASSING sign at the completion of the board-up.
4. Commercial property with full windows or glass facades shall be blacked out and adhesive shall be used to attach the plywood to the glass from the interior to prevent shattering. Plywood shall be secured to the window/glass framing.
5. ONLY Interior Boarding shall require blackout of windows and be secured with plywood and 2x4 braces fasten to the wall with deck nails and specialized star-drive head screws.

MATERIALS

1. Plywood, 1/2" (4 ply) exterior grade CDX
2. Braces - 2" by 4" by 8' (or longer) construction grade lumber
3. 3/8" (coarse thread) by 12" (or longer) carriage bolts (rounded head on weather side)
4. 3/8" (coarse thread) construction grade nuts

5. 1/2" (USS Standard) Flat washers with an inside diameter large enough to bypass the wrench neck inside the carriage bolt head so no lift edge is available beneath an installed carriage bolt head.
6. 3/8" (USS Standard) diameter flat washers for installation beneath the nut inside the building
7. Combination of 2"-3" deck nails and 2"-3" Star-drive screws; T-20, T-25, etc.

BARRIER ASSEMBLY

1. Plywood shall be cut to fit over the window and door openings, flush with outside of the molding/trimmer stud. Application of barriers shall be completed so that all lift or pry points are avoided. Plywood board shall be solid sheets without seams or joints.
2. The 2x4 braces shall be cut to fit the horizontal dimension of the plywood. Two exterior and two interior 2x4 braces shall be provided for each window and three sets for each door.
3. Window Assembly – Braces are located horizontally approximately 1/3 of the distance from the top and the bottom of the window. Bolt holes are located 1/3 of the length of the brace from the outside edge of the window jams. Prior to installation, the assembly should be pre-assembled and 3/8" holes drilled through all of the components.
4. Door Assembly – Door braces will be placed horizontally; one in the center of the doorway and one 1/2 the distance from the center to the top and one 1/2 distance from the center to the bottom of the doorway. Bolt holes are located 1/3 of the length of the brace from the outside edge of the doorframe. Prior to installation, the assembly should be pre-assembled and 3/8" holes drilled through all of the components.
5. Plywood used to cover exterior openings shall be nailed every 12" along the perimeter of the frame of the window, door, or opening.
6. The 2x4 braces on the interior and exterior of the assemblies shall be secured using 3/8" by 12" carriage bolt assemblies. Bolts shall be inserted through the predrilled holes from the exterior with a 1/2" washer place against the exterior brace, a 3/8" washer is placed against the interior brace. The bolt is tightened from the inside so that it slightly compresses the interior brace. The 2x4 Bottom Brace shall be cut to width of door trim and drilled to the floor to prevent opening.
7. Garage Door – the opening shall be covered with plywood and secured with a minimum of 3-inch-long deck or wood screws installed on 6-inch centers around the circumference of the opening. An interior or exterior 2x4 Bottom Brace is required to prevent it from opening and drilled to the floor with masonry screws (or as appropriate).

NOTE: These specifications are subject to change upon case-by-case scenario. Any changes or recommendations shall be discussed during the walk-through of the property prior to a proposal, quote and or notice to proceed.

WINDOW BOARDING SPECIFICATION

NOTES:

1. FOR DOUBLE HUNG WINDOWS, SLIDE SASH TO CENTER OF UNIT AND PASS BOLTS THROUGH OPENINGS AT TOP AND BOTTOM.
2. STORM WINDOWS SHOULD BE REMOVED AND STORED INSIDE STRUCTURE.
3. OUTSIDE TRIM MAY HAVE TO BE REMOVED TO ACCOMMODATE A FLUSH AND TIGHT FIT.
4. TIGHTEN NUTS FROM INSIDE ENOUGH TO SLIGHTLY COMPRESS 2X4 BRACE.
5. BRACE LOCATIONS: $A = 1/3 B$ (SEE DIMENSION LOCATIONS ON DRAWING)
NOTE: WINDOWS 3 FEET IN HEIGHT OR SHORTER ONLY REQUIRE ONE BRACE.
6. LOCATION OF BOLT HOLES: $C = 1/3 D$ (SEE DIMENSION LOCATIONS ON DRAWING)
7. THE PLYWOOD BOARD SHOULD BE SECURED WITH SCREWS EVERY 12" ALONG THE PERIMETER OF THE FRAME OF THE WINDOW, DOOR, OR OPENING, AND WITH DECK NAILS AT EVERY 6" MARK WHERE SCREW IS NOT PLACED.

DOOR BOARDING SPECIFICATIONS

NOTES:

1. IRON DOORS OR FRAMES MAY BE REMOVED AND STORED INSIDE BUILDING IF NECESSARY.
2. USE 3/8" X 12" CARRIAGE BOLTS - ROUNDED HEAD ON OUTSIDE OF BUILDING. LONGER BOLTS MAY BE NECESSARY.
3. TIGHTEN NUTS FROM INSIDE ENOUGH TO SLIGHTLY COMPRESS 2X4 BRACE.
4. IF PLYWOOD CAN NOT BE BUTTED AGAINST BAND MOLDING, CUT TO COVER OUTSIDE EDGE OF DOOR FRAME.
5. BOLT HOLES ARE LOCATED AS THEY ARE FOR WINDOWS (SEE WINDOW DETAIL)
6. CENTER BRACE LOCATED IN CENTER OF DOORWAY OPENING. TOP AND BOTTOM BRACES ARE POSITIONED WHERE $A = 1/2B$ (SEE DIMENSION LOCATIONS ON DRAWING)
7. USE 2X4 BOTTOM BRACE - CUT TO WIDTH OF DOOR TRIM. DRILL TO THE FLOOR TO PREVENT OPENING. INTERIOR AND EXTERIOR BOTTOM BRACES WITH MASONRY SCREWS ARE MANDATORY WHEN BOARDING GARAGE DOORS.

BRACE AND CARRIAGE BOLT SPECIFICATION

NOTES:

1. USE 2" BY 4" BY 8' (OR LONGER) CONSTRUCTION GRADE LUMBER FOR BRACES.
2. USE 3/8" X 12" CARRIAGE BOLTS - ROUNDED HEAD ON OUTSIDE OF BUILDING
3. TIGHTEN NUTS FROM INSIDE ENOUGH TO SLIGHTLY COMPRESS WASHER INTO 2X4 BRACE.
4. USE 1/2" WASHER ON WEATHER SIDE TO ACCOMMODATE THE WRENCH NECK OF BOLT AND ELIMINATE PRY POINTS.

WINDOW ASSEMBLY

MATERIALS REQUIRED PER WINDOW

- 1 - 1/2" CDX PLYWOOD SHEET-CUT TO DIMENSIONS OF WINDOW FRAME (WEATHER SIDE
4 - 2X4 BRACES - CUT TO WIDTH OF PLYWOOD
4 - CARRIAGE BOLT ASSEMBLIES

NUMBER OF WINDOWS TO BE SECURED (N_w): _____

NUMBER OF WINDOWS BRACES REQUIRED: ($N_w \times 4$) _____

CARRIAGE BOLT ASSEMBLIES REQUIRED (B_w): ($N_w \times 4$) _____

DOOR ASSEMBLY
MATERIALS REQUIRED PER DOOR

- 1 - 1/2" CDX PLYWOOD SHEET - CUT TO DIMENSIONS OF DOOR FRAME (WEATHER SIDE)
- 1 - 1/2" CDX PLYWOOD SHEET - CUT TO OUTSIDE DIMENSIONS OF DOOR FRAME TRIM (INSIDE)
- 6 - 2X4 BRACES - 3 CUT TO WIDTH OF OUTSIDE PLYWOOD
- 3 CUT TO WIDTH OF INSIDE PLYWOOD
- 1 - 2X4 BOTTOM BRACE - CUT TO WIDTH OF DOOR TRIM DRILLED TO FLOOR (INSIDE)
- 6 - CARRIAGE BOLT ASSEMBLIES

NUMBER OF DOORS TO BE SECURED (N_D): _____

NUMBER OF DOOR BRACES REQUIRED: ($N_D \times 6$) _____

NUMBER OF BOTTOM BRACES REQUIRED: (N_D) _____

CARRIAGE BOLT ASSEMBLIES REQUIRED (B_D): ($N_D \times 6$) _____

CARRIAGE BOLT ASSEMBLY

MATERIALS REQUIRED PER CARRIAGE BOLT ASSEMBLY

- 1 - 3/8" X 12' (OR LONGER IF NECESSARY) CARRIAGE BOLT - COURSE THREAD
1 - 1/2" USS STANDARD FLAT WASHER (WEATHER SIDE)
1 - 3/8" USS STANDARD FLAT WASHER (INSIDE)
1 - 3/8" CONSTRUCTION GRADE NUT - COURSE THREAD

TOTAL CARRIAGE BOLT ASSEMBLIES REQUIRED FOR WINDOWS AND DOORS:
(B_W + B_D)

BID SUBMISSION

DATE: 5/3/2022

TO: City of Santa Ana

FROM: Hunter Consulting Inc., dba HCI Environmental & Engineering

RE: RFP # 22-068

NAME: Trash, Weeds, Rubbish & Sanitation Abatement and Board up Services

HCI Environmental & Engineering is responding to the City of Santa Ana RFP No. 22-068 entitled **Trash, Weeds, Rubbish & Sanitation Abatement and Board-up Services**. If awarded the agreement, HCI agrees to enter into a contract with the City of Santa Ana to provide board-up, weed and sanitation abatement services to ensure hazardous, and/or substandard properties are properly secured, abated, cleaned to prevent harm and attractive nuisances to the structure and/or community. HCI has the experience, availability of staff and other required resources for performing all services and providing all deliverables as described in this solicitation including all of the required permits and approvals to package, manage and transport hazardous waste (attached to this submission). Furthermore, HCI confirms having a health and safety program as required by Title 8, California Code of Regulations, and will comply with all local, State, and Federal laws and regulations governing haulers of hazardous waste.

- This bid is to remain valid for a period of not less than 90 days from the date of submittal.

Should any questions arise, or any items that need to be clarified, please contact Greg Parker (President) who is authorized to represent HCI as well as enter into negotiations in respect to this IFB and any subsequently awarded contracts, at the number listed below.

CAPABILITY STATEMENT

BUSINESS SUMMARY:

HCI is a full-service environmental management company specializing in general contracting, biohazard clean-up, hazardous waste transportation & disposal and 24/7 emergency chemical spill response. HCI provides consistent, cost-effective services and products to customers throughout the United States, and we have provided superior environmental services to the private, commercial and government sectors for over 30 years. HCI's workforce includes engineers, planners, and scientists who are capable of delivering a variety of specialized support services at a moment's notice.

CAPABILITIES:

- | | |
|-------------------------------|-------------------------------------------------|
| - Demolition | - Fentanyl/and other Opioid Decontamination |
| - Coronavirus Decontamination | - Emergency Chemical Spill Response |
| - Bio Hazard Decontamination | - Vacuum Tanker, Bulk Tanker, Truck & Trailer |
| - Containerized Waste | - Sampling and Analysis |
| - Bulk Waste | - Waste Categorization, Profiling & Manifesting |
| - Lab Packs | - Trauma Scene Clean up |

FACILITIES AND EQUIPMENT:

- | | | |
|-------------------------|----------------|--------------------|
| - Vacuum Trucks | - Loaders | - Truck & Trailers |
| - Excavators | - Box Vans | - Backhoes |
| - Equipment Trucks | - Bobcats | |
| - High-Pressure Washers | - Light Towers | |

EXPERTISE:

HCI's experience offers several distinct advantages that include technical understanding, management systems, and resources. We bring value and strength to our customers through:

- Understanding of public agencies – We have significant experience working with large public entities with multiple, concurrent tasks and complicated environmental issues while meeting strict budget and schedule requirements.
- Proven past performance – We take pride in our ability to provide superior work products and rapidly respond to clients' requests and needs.
- Development of practical and attainable solutions– HCI understands the necessity of making timely and cost-effective decisions.

Summary

HCI is committed to providing superior service to all its clients by maintaining a fully staffed customer service and regulatory compliance department. We are a hands-on, turn-key, field services company specializing in providing the expertise, personnel, equipment, and technology to complete a wide variety of environmentally related projects. Our successful track record is built upon a combination of diligence, flexibility, and process, all of which provides a thorough understanding of our clients' needs. Our high-quality service, coupled with competitive rates and our extensive database of qualified personnel, combine to make HCI the right choice for your environmental and engineering needs.

Professional Summary

Project/goal oriented including both corporate and personal achievements with 30 years diversified staff, marketing, sales, engineering, operations, project management, and regulatory compliance experience. Servicing Industrial, Commercial and Public Entities

Professional Experience

Hunter Consulting, Inc

Db a HCI Environmental & Engineering Service, Riverside, CA 10/99-Current

President, Founder and Shareholder

HCI is a full-service environmental management firm making use of its experience and contacts in the industry to develop and grow into **the nation's premier engineering and waste management service provider**

Current Services include:

Environmental Engineering	Hazardous Waste Disposal/Recycling/Treatment	Transportation
Contaminated Soil	Containerized Waste Streams	Vacuum Tankers
Remediation/Excavation	Bulk Waste Streams	Roll-off
Site Decontamination	Hazardous & Non- Hazardous	Super Suckers
UST/AST Removal & Installation	Waste Sampling & Classification	Box Vans
Confined Space Entry	Emergency Spill Response	Bulk Tankers
Asbestos Abatement	Train Car Derailment	
Tank Cleaning & Demolition	Vehicle Turn-over	
	Punctured Fuel Tank	
	Spilled Containers	
	Contaminated Storm Drain	

DeMenno/Kerdoon Corporation

Compton CA 8/98-10/99

(Change of Employer due to Acquisition of Advanced Environmental, Inc by DeMenno/Kerdoon Corporation)

Executive Vice President

The United States largest waste oil, wastewater, and antifreeze recycler. The DeMenno/Kerdoon group of companies include Advanced Environmental, Inc (Environmental Engineering and 24/7 Emergency Response to hazardous material spill incidents) Asbury Environmental Services (Transportation of hazardous waste via over 300 vehicles and waste management practice) D/K Environmental (Fully permitted treatment, storage, disposal facility to include all liquids and solid waste streams) and DeMenno/Kerdoon (Fully permitted treatment, storage, disposal facility to include oil recycling, waste water treatment and antifreeze **recycling**) is California's premier full service hazardous/Non-hazardous liquid/solid waste management company with 400 employees.

Licenses Held

Class A-General Contractors License	Professional Seminars & Training
California State Contractors License Board #788216	American Management Association Hazardous MaterialDale
ASB-Asbestos Cert, HAZ-Hazardous Substances Removal,	Carnegie Leadership Training for Managers
C- 21 Demolition	Sales
South Coast Air Quality Management District	Management
Indoor Air Quality Association	Finance
Certified Mold Remediator #02793	Computer
	Environmental
	Transportation
	Goldman Sachs 10,000 small business graduate

Professional Memberships

Hazardous Waste Association, American Management Association, California Management Association

C. ROBERT GUY

Professional Summary

Project goal oriented Executive Manager including both corporate and personal achievements with 16 years diversified staff, marketing, sales, engineering & construction, operations, project management, transportation, and regulatory compliance experience. With over 20 years' experience in the environmental management industry, I have focused on the Construction/Engineering aspects in the environmental field.

TRESSA HAUSNER

Professional Summary

Provide interpretation of environmental regulatory requirements for such agencies as the California Department of Toxic Substance Control (Title 22), The United States Federal Register (49 CFR), OSHA Regulations (29CFR) Code of Federal Regulations, The California Highway Patrol BIT program and the Department of Health Services specifically the Medical Waste Management Act. Responsible for all forms of document preparation, i.e.: hazardous waste manifest, hazardous waste labels, land ban restriction forms. Work as a liaison with disposal facilities; accurately identify the type of waste whether it be hazardous or non hazardous and provide the proper documentation, protective equipment and scope of work needed to ship the materials safely. Review environmental service contracts, identify compliance action dates, and track all compliance requirements. Work as a nexus to assist clients in properly completing regulatory inquiry documents submitted by various agencies. Respond to emergency releases of hazardous chemicals and act as a regulatory liaison.

Professional Experience

Hunter Consulting, Inc

Db a HCI Environmental & Engineering Service, Corona, CA 4/04-Current

V.P. Customer Relations/ Regulatory Compliance

- Responsible for reviewing and creating environmental contracts including characterization of a field inventory sheets
- Ensure customer satisfaction which includes communicating with Operations, to make certain jobs go according to proposal
- Assist in answering phone when necessary
- Ability to communicate on a professional level
- Knowledge of company policies
- Knowledge of industry, ability to extensively answer and explain client questions
- Manage low costs from TSDF, Transporters and various vendors
- Review TSDF, Transporter and various vendor statements/bills to ensure correct costs
- Review field paperwork to ensure customer satisfaction
- Sets-up, organizes and maintains all filing associated with customer service such as, hazardous waste proposals and contracts
- Provides interpretation of environmental regulatory requirements for various agencies associated with local, state and federal
- Responsible for all forms of documentation such as but not limited to: i.e., Hazardous Waste Manifests, LDR's, Profiles, Waste Labels
- Works as a liaison with disposal facilities; accurately identifying waste streams, provide proper documentation
- Nexus to assist clients with regulatory inquiries as completing annual documents provided by various agencies, changes on manifests, profiles and LDR's;
- Ensures all samples are taken properly and chain of custody is filled out correctly, provides correct EPA methods for various samples
- Ability to read and interpret analytical results
- Sets-up, organizes and maintains all filing associated with regulatory compliance such as, profiles, manifests, LDR's and check off list
- Creates and provides all paperwork associated with the transportation and disposal of hazardous waste such as, hazardous waste manifests, LDR's, waste labels, check off list
- Responsible for manifest rejections from TSDF

Education:

- High School Diploma
- Complete 40 Hours Hazwoper training
- D.O.T. Drug & Alcohol Supervisor
- HM-181 Cargo and Security Awareness
- California Hazardous Waste Classification Training

Knowledge:

- Knowledge of Resource Conservation Recovery Act (RCRA) requirements/regulations
- Knowledge of chemicals
- Knowledge and ability to look up all regulations associated with the environmental industry i.e., DOT, EPA, DTSC, OSHA, Medical Waste Act
- Quick Books experience

Competencies:

- Proficient with Windows based applications
- Proficient with Compliance Suite Manifest Program
- Adheres to all local, state, and federal regulations
- Attention to detail
- Able to multi-task under pressure
- Strong communication skills
- Strong customer service skills

JENNIFER CLEMISON

Professional Summary

30 years diversified staff, marketing, sales, operations, project management and specialty projects. Servicing Commercial and public entities. Certificates: 40 hour Hazwoper certified, Covid 19, DOT-HM 181 and Security Training California Hazardous Waste Classification Training, Confined Space Certified, First Responder Certified, TWIC Card Holder, 5 K Forklift, Drum Handling and Heat Stress.

Description: Disposal of Bio-Hazardous Wastes/ Trauma Scene Cleanup
Date: 2012-current
Amount so far: \$45,000.00 Approx

Work Plan

In regards to the management and response to the customers needs, the following steps will be taken with respect to the Scope of Work.

Emergency Situation:

When a hazardous material incident occurs, attention must be paid to the prevention of the hazardous material spreading and unnecessary contamination of the spill location, environment and property.

Containment is the prevention or reduction of the continuing spread of hazardous materials by various means. However, the first priority is to protect personnel.

Containment methods include berming, use of absorbents, covering, damming and using jelling agents. Berming, curbing or diking with available materials prevents further spread of the materials or directs the flow of the materials in a more desired direction. Control is the act of preventing more discharge of hazardous material, usually from the source.

Control methods include repairing leaks, closing valves, capping discharge materials, solidifying, plugging, patching or any other effective control method applicable during the response to the incident which may reduce or stop the flow. Control activities may require the personnel to enter the high risk area called the "exclusionary zone" to conduct control activities. This requires wearing chemically protective clothing and equipment which can make the task of control more difficult to achieve. Only trained workers can conduct "safe" control techniques.

- HCI receives **live operator** calls 24 hours a day 7 days a week
- HCI requests type and quantity of material spilled and address of spill location
- HCI dispatches a Project Manager and appropriate personnel to spill location with equipment truck and necessary spill containment supplies to be on-site with-in one to two hours
- When HCI arrives onsite, the spill situation will be assessed, account for and ensure the safety of all people, isolate the area and, if possible, stop the flow of product. HCI will then take steps to control the incident
- Once the spill is under control, HCI will begin spill clean-up procedures
- HCI will schedule the waste for transportation, and prepare all necessary documentation to include shipping documents and labeling requirements
- HCI will profile the waste stream to the designated facility
- HCI will obtain an EPA ID number for the responsible party, if needed
- Waste will be packaged, loaded on to truck, labels will be fixed to container, paperwork signed and copies left with the client
- HCI will then transport the waste to the designated facility and drop off for disposal
- All paperwork will be signed by facility and proper documentation will be mailed back to the customer for their files and a emergency event report will be emailed to the customer within 24-48 hours.

;

Non-Emergency Situation:

- HCI receives fax, email or phone order
- HCI contacts appropriate person at customer site to confirm types and quantities of waste
- If necessary, HCI will schedule an Environmental Technician to view and inventory the waste within one to two days
- A Environmental Technician will be scheduled if it is determined sampling or analysis is needed
- HCI will complete a profile to the designated waste disposal facility
- HCI will schedule the waste for transportation
- HCI will prepare all necessary documentation to include shipping documents and labeling requirements
- If necessary HCI will obtain a EPA ID number for the customer
- At the time of pick-up, HCI will have all the appropriate containers, safety equipment, appropriate paperwork and Environmental Technicians to perform the job
- Waste will be packaged, loaded on to truck, labels will be fixed to container and paperwork will be signed and copies will be left with the customer
- HCI will then transport the waste to the designated facility and drop off for disposal
- All paperwork will be signed by facility and proper documentation will be mailed back to the customer for their files.

Homeless Encampment Clean-up

HCI crews are sensitive to these situations and make every effort to work with the people and cities affected by this and create as pleasant an environment as possible.

Services Provided:

- Demolition and disposal of structures and large debris.

- Collection, removal and disposal of small debris.

- Collection, packaging, preparation of proper paperwork and transportation of bio-hazardous materials (sharps, human feces, urine, soiled clothing, drug paraphernalia, trauma scene debris and human excrement, etc.) -Collection, packaging, preparation of proper paperwork and transportation of hazardous waste (aerosols, petroleum products, paint, etc.)

HCI's environmental technicians are fully trained for all scenario's experienced during the homeless encampment cleanup program including but not limited to the following: -Bloodborne pathogens -Trauma scene cleanup - COVID-19 decontamination -40 hour HAZWOPER -Confined space entry -Chemical spill response and remediation - Characterization and labpacking

HCI understands the requirements of each project differ. HCI is very experienced in working with law enforcement and city personnel in multiple scenarios. HCI is fully licensed and insured to provide homeless encampment cleanup services 24/7/365.

Please visit our website at www.hcienv.com for more information or call me at either number below, we also have several contracts with other local cities, that may fit your needs also.

Confined Space Entry Event

In a confined space entry event HCI Environmental onsite personnel will conduct a pre-entry and rescue site assessment.

Once it is determined that a confined space entry needs to be performed, HCI's acting supervisor will fill out a confined space permit.

All confined space entrants, attendants and rescue personnel will determine who is going to be assigned what specific tasks during the course of the confined space objective.

HCI will perform a lockout/ tag-out procedure on all utilities, if present, in the confined space.

All certified confined space equipment such as tripods, harnesses, lanyards, rescue lines, ventilators, SCBA's, winches, and 4 gas meters will be inspected and calibrated.

Clearance of the atmosphere will be recorded on the confined space entry permit.

A pre-site rescue assessment will be conducted in order to determine the type of rescue that will be utilized.

Entry into the confined space will be considered after all 4 gas meter recordings have been performed and are below the Oxygen (O_2), Lower Explosive Limit (LEL), Hydrogen Sulfide (H_2S) and/or Methane threshold limits.

The confined space atmosphere will be consistently monitored during the entry and logged every 10-15 minutes to see if there are any fluctuations in the air monitoring results.

After the confined space entry objective has been accomplished the Entry Supervisor will sign off on the confined space permit and close out the confined space permit for the specific entry.

Crime and Trauma Scene Clean-Up

HCI understands the care necessary when addressing a Crime or Death Scene. It is a non-planned event and very emotional time for most involved. We take the time to understand your situation and address it in the most cost-effective responsible manner possible.

HCI assesses waste and size of clean-up.

A "before" picture is taken of the scene.

HCI soaks bio-waste with approved solution in order to "soften" material.

During the "softening" process, HCI gathers supplies in order to start the waste cleaning procedure.

Depending on the waste, HCI will either scrub, spray or scoop waste into approved biohazard container(s).

HCI will continually clean contaminated site until no further waste is visible.

An "after" photo is taken of the scene.

Once the site is clean, HCI will sign off on a federally regulated manifest and haul waste and cleaning supplies to be properly disposed of.

HCI is a California Department of Public Health Trauma Scene Waste Practitioner.

Hazardous Material Dumping

HCI Environmental & Engineering Service and its affiliates are fully licensed and insured to handle all categories of hazardous materials including explosives, pressurized gas cylinders, and radioactive material. All personnel are fully trained in the “safe” removal of these materials in various situations, and are certified in respiratory protection, confined space entry, and C.P.R.

Drivers and technicians participate regularly in ongoing programs and “tail gate” safety meetings to further their knowledge and experience in safety and procedures.

When arriving to a dumping site of unknown waste, HCI first takes pictures of each item and any labels that are on containers that may give an indication of what the substance is.

A call is placed to dispatch and the customer to confirm if we are to proceed with testing and removal.

Once confirmed the technician will do a Chemical Classifier Strip to determine if they are acid/base, bromine, chlorine, fluoride, iodine, organic solvent, oxidizer or petroleum distillates.

The testing results and pictures are then sent over to HCI’s compliance department to determine how the substances will be classified and packaged.

Once packed into U.N. Approved Containers they will be manifested and transported off site to an approved TDSF.

HCI Environmental & Engineering Service maintains the highest rating from the DOT.

Rate and Service Structure

Additional Pricing

Rate and Service Structure

- A. Board-up cost of 1st standard window/ (1) each additional window thereafter
\$400.00 Flat Rate (maximum 4 hours anything above 4 hours resorts to hourly rate)
\$355.00 Hourly Rate
- B. Board up cost of 1st single door opening /(1) each additional door thereafter
\$400.00 Flat Rate (maximum 4 hours anything above 4 hours resorts to hourly rate)
\$355.00 Hourly Rate
- C. Board of cost of a garage
\$1600.00 Flat Rate Flat Rate (per garage door)
\$775.00 Hourly Rate
- D. Bolt, screw door, garages and windows
\$25.00 per set bolt & screws
- E. Chain and lock fee
\$85.00 per set chain & lock
- F. Weed abatement service: includes mow, hand weed abatement, blow off sidewalks, edging and handwork of perimeter, disposal etc., (primarily neglected residential, commercial property) per hour rate
\$1340.00 Flat Rate (maximum 4 hours anything above 4 hours resorts to hourly rate)
\$550.00 Hourly Rate
- G. Small scale- Debris removal service; cost per ton. Includes clean-up debris by hand, disposal (no heavy equipment)
\$2610.00 Flat Rate (maximum 4 hours anything above 4 hours resorts to hourly rate)
\$1035.00 Hourly Rate

H. Large Scale- Debris removal service cost, unpermitted encampments. Cost of heavy equipment that include but may not be limited to Track Loaders, Truck and semi-end dump trailer combinations, Water trucks, High Reach fork-lifts, Stake bed trucks, backhoes, skip loaders, tractors, and additional service trucks and machinery to assist. Evaluation and analysis will be based on submittal of proposal and all identified costs, including any and all costs related to collect and dispose items.

[Please see attached Homeless Encampment Pricing](#)

I. Travel charge [\\$160.00](#) (per location/per tech-4 hr min)

J. After hour charge [\\$230.00](#) (per truck/per tech-4 hr min)

Additional Pricing

Manifest Fee [\\$30.00 \(each\)](#)

Mob and Demob of equipment [\\$600.00 \(per each large piece of equipment\)](#)

Bio Hazardous Waste Containers: [\\$25.00](#)

Bio Hazardous Misc Supplies & PPE: [\\$125.00](#)

Bio Hazardous waste disposal: [TBD](#)

Hazardous Materials Disposal and Transportation: [TBD](#)

Below is a list of common items used on a homeless encampment remediation.
Items used are site specific, client is billed for only what is used.

Description	Straight Time	UOM
Equipment Truck	\$350.00	per day
Track Skid Steer	\$620.00	per day
Grapple Bucket	\$190.00	per day
Backhoe	\$575.00	per day
Fuel-Grease-Maintenance-Per Piece of Equipment	\$250.00	per day
Mobilization of Equipment-Per Piece of Equipment	\$300.00	each
Demobilization of Equipment-Per Piece of Equipment	\$300.00	each
Dump Trailer	\$400.00	per day
Generator	\$150.00	per day
Confined Space Equipment	\$1,650.00	per day
Class C PPE-tyvek, hard hats, safety glasses	\$55.00	per man/per day
Misc hand tool-pickers, shovels, rakes	\$300.00	per day
55g Drum-Hazardous Waste	\$75.00	each
44g Drum-Bio Waste	\$35.00	each
1 Quart Sharps Containers	\$50.00	each
40 Yard Roll off Bin	\$35.00	per day
Narcan Kit(required at every site)	\$135.00	each
Biological/Sharps Waste Load Fee	\$125.00	each
Manifest Fee	\$30.00	each
Crawler Loader	\$125.00	hour
Dump Trailer (small)	\$135.00	hour
Hi Reach Forklift	\$150.00	hour
Skip Loader	\$125.00	hour
Tractor	\$135.00	hour

CERTIFICATE OF REGISTRATION
FOR REGISTRATION YEAR(S) 2020-2023

Registrant: HUNTER CONSULTING INC DBA HCI ENVIRONMEN
ATTN: Tressa Hausner
12155 MAGNOLIA AVE SUITE 4C
RIVERSIDE , CA 92503

This certifies that the registrant is registered with the U.S. Department of Transportation as required by 49 CFR Part 107, Subpart G.

This certificate is issued under the authority of 49 U.S.C. 5108. It is unlawful to alter or falsify this document.

Reg. No: 051320550050CE Effective: July 1, 2020 Expires: June 30, 2023

HM Company ID: 301615

Record Keeping Requirements for the Registration Program

The following must be maintained at the principal place of business for a period of three years from the date of issuance of this Certificate of Registration:

- (1) A copy of the registration statement filed with PHMSA; and
- (2) This Certificate of Registration

Each person subject to the registration requirement must furnish that person's Certificate of Registration (or a copy) and all other records and information pertaining to the information contained in the registration statement to an authorized representative or special agent of the U. S. Department of Transportation upon request.

Each motor carrier (private or for-hire) and each vessel operator subject to the registration requirement must keep a copy of the current Certificate of Registration or another document bearing the registration number identified as the "U.S. DOT Hazmat Reg. No." in each truck and truck tractor or vessel (trailers and semi-trailers not included) used to transport hazardous materials subject to the registration requirement. The Certificate of Registration or document bearing the registration number must be made available, upon request, to enforcement personnel.

For information, contact the Hazardous Materials Registration Manager, PHH-52, Pipeline and Hazardous Materials Safety Administration, U.S. Department of Transportation, 1200 New Jersey Avenue, SE, Washington, DC 20590, telephone (202) 366-4109.
