LAND USE COVENANT AND AGREEMENT

ENVIRONMENTAL RESTRICTIONS

County of **Orange**, Assessor Parcel Number(s): **398-092-14**
The Crossroads at Washington
401955

This Land Use Covenant and Agreement ("Covenant") is made by and between **Housing Authority of the City of Santa Ana** (the "Covenantor"), the current owner of property located at **1126 and 1146 East Washington Avenue, Santa Ana**, in the County of **Orange**, State of California (the "Property"), and the Department of Toxic Substances Control (the "Department"). Pursuant to Civil Code section 1471, the Department has determined that this Covenant is reasonably necessary to protect present or future human health or safety or the environment as a result of the presence on the land of hazardous materials as defined in Health and Safety Code section 25260. The Covenantor and the Department hereby agree that, pursuant to Civil Code section 1471 and Health and Safety Code section **25355.5**, the use of the Property be restricted as set forth in this Covenant and that the Covenant shall conform with the requirements of California Code of Regulations, title 22, section 67391.1.

ARTICLE I

STATEMENT OF FACTS

1.1. Property Location. The Property that is partially subject to this Covenant, totaling approximately **1.49 acres**, is more particularly described in the attached **Exhibit A, "Legal Description"**, and depicted in **Exhibit B, Plot Plan**. The Property is located in the area now generally bounded by **East Washington Avenue to the north, Interstate-5 off-ramp to the east, and parcel 398-092-13 to the south**. The Property is also identified as County of **Orange**, Assessor Parcel Number **398-092-14**.

(a) A limited portion of the Property will be subject to the restrictions of this Covenant ("Restricted Area"), and is more particularly described in **Exhibit "C,"** It is located **[describe restricted area location, with gps coordinates (33.754899, -117.854681 to the north east, 33.754899, -117.854856 to the north west, 3.754748, -117.854856 to the south west, and 33.754748, -117854681 to the south east) and/or physical/permanent architectural landmarks.**

1.2. Remediation of Property. This Property has been investigated and/or remediated under the Department's oversight. The Department approved a **Supplemental Site Investigation, Screening Level Human Health Risk Assessment, Removal Action Workplan** in accordance with Health and Safety Code, division 20, chapter **6.8**. The remediation activities conducted at the Property include

(1) excavation and offsite disposal of soil contaminated with arsenic, lead, chromium, and petroleum hydrocarbons, and (2) institutional controls to restrict construction over the area of soil vapor contaminated with Tetrachloroethene beneath the western portion of the North parcel. Hazardous substances, including Tetrachloroethene, remain at the Property above levels acceptable for unrestricted land use.

1.3. Basis for Environmental Restrictions. As a result of the presence of hazardous substances, which are also hazardous materials as defined in Health and Safety Code section 25260, at the Property, the Department has concluded that it is reasonably necessary to restrict the use of the Restricted Area described in Exhibit C, in order to protect present or future human health or safety or the environment, and that this Covenant is required as part of the Department-approved remedy for the Property. The Department has also concluded that the Property, as remediated and when used in compliance with the Environmental Restrictions of this Covenant, does not present an unacceptable risk to present and future human health or safety or the environment.
