Paseo: a public place or path designed for walking; promenade.

Pedestrian First: The practice of addressing the needs of people, once out of their automobiles, through a series of interdependent urban design and streetscape principles (e.g., wide sidewalks, street trees and shade, on-street parking, outdoor dining, inviting storefronts, the feeling of being in an 'outdoor room', short cross-walk distances, interconnected and short blocks).

Pedestrian Shed: An area defined by the average distance that may be traversed at an easy pace from its edge to its center in approximately 5 minutes. This distance is used to determine the size of a neighborhood. This dimension averages one quarter of a mile or approximately 1,400 feet for generally flat terrain.

Personal Services: Establishments providing non-medical services to individuals as a primary use. Examples of these uses include:

- barber, nail salons and beauty shops
- clothing rental
- dry cleaning pick-up stores with limited equipment
- home electronics and small appliance repair
- locksmiths
- pet grooming with no boarding
- shoe repair shops
- tailors

These uses may also include accessory retail sales of products related to the services provided.

Personal Services - Restricted: Personal services that may tend to have a blighting and/or deteriorating effect upon surrounding areas and which may need to be dispersed to minimize their adverse impacts. Examples of these uses include:

- laundromats (self-service laundries). Laundromats shall comply with the development and performance standards set forth in Section 41-199.
- massage establishments (licensed, therapeutic) as defined on Section 41-1751.7 of the SAMC. Massage establishments shall comply with Article XVII.I of Chapter 41 of the SAMC.
- pawnshops

Planter: The layer of the streetscape which accommodates street trees. Planters may be continuous or individual according to the Thoroughfare and location within the neighborhood.

Podium: A continuous raised platform supporting a building, or a large block of two or three stories beneath a multi-layer block of a smaller area.

Porch: see 'Frontage Types'

Private Frontage: The privately held layer between the frontage line and the principal building facade. The structures and landscaping within are held to specific standards. The variables of Private Frontage are the depth of the setback and the combination of architectural elements such as fences, stoops, porches and galleries. These elements influence social behavior in the public realm. The Frontage layer may overlap the public streetscape in the case of awnings, Galleries and Arcades.

Research and Development: A quasi-industrial facility where creative work is undertaken on a systematic basis in order to increase the stock of knowledge generally in the fields of medicine, scientific instruments, safety- critical mechanism or high technology. These facilities may include pilot plant operations as an ancillary use, which shall not exceed 25 percent of the floor area. A facility providing full scale production shall be deemed a manufacturing use.

Rowhouse: See 'Building Types'

Setback: The area of a lot measured from a lot line to a building facade or elevation that must be maintained clear of permanent structures excepting galleries, fences, garden walls, arcades, porches, stoops, balconies, bay windows, and terraces which are permitted to encroach into the setback subject to the standards established in Division 3 of this Article.

Shared Parking (Park-Once Policy): An accounting for parking spaces that are available to more than one function. The requirement is based on a range of parking-demand found in mature, mixed-use centers. The Shared Parking ratio varies according to multiple functions in close proximity unlikely to require the spaces at the same time. This approach to parking uses the following types of parking in combination to achieve a balanced and distributed supply of parking: off-street (surface lots and garages), on-street (parallel and diagonal).

Shopfront: see 'Frontage Types'

Stacked Dwellings: See 'Building Types'

Stoop: see 'Frontage Types'

Story: A habitable level within a building from finished floor to finished ceiling: Attics and basements, as defined by the California Building Code (CBC) are not considered a story for the purposes of determining building height and are subject to the applicable requirements of this code and the CBC, except for when the finished floor level directly above a basement or cellar is more than six feet above grade, such basement or cellar shall be considered a story.
