

**CITY OF SANTA ANA FY22/23CIP
CAPITAL IMPROVEMENT PROJECT WORKSHEET**

EXHIBIT 5

PROJECT TITLE:

Santa Ana City Hall Second and Fifth Floor Tenant Improvements

PROJECT CATEGORY:

*City & Park Facility Improvements
Municipal Facilities*

PROJECT DESCRIPTION:

Selective demolition and installation of existing non-bearing interior partitions, electrical, finish ceiling, finishes, and plumbing fixtures.

PROJECT NEED:

Facilities at City Hall and the Ross Annex are currently undergoing floor renovations. To minimize the impact to daily operations of our employees and the general public, work has been programmed to take place in phases. The existing facility on the 2nd and 5th floors of City Hall are outdated and some materials are beginning to show signs of deterioration and need of replacement. This project will include updating lighting, plumbing fixtures, finishes, demolition and installation of non-bearing interior partitions and ceiling finishes. Once completed, these improvements will enhance not only the physical aesthetics of the floor but also keep our facility in compliance with the latest building codes and the American Disability Act.
