

CITY OF SANTA ANA FY 23/24CIP CAPITAL IMPROVEMENT PROJECT WORKSHEET

PROJECT TITLE:

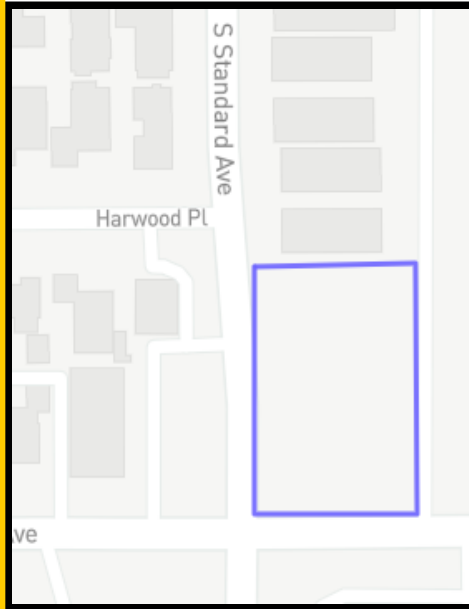

Standard-McFadden Park

PROJECT CATEGORY:City & Park Facility Improvements
Park Facility**PROJECT DESCRIPTION:**

The project develops the existing vacant, unused parcel of land into a new park, which would include a skate area, exercise area, playground area, walking loop, open space and basketball court. The project will also include drought tolerant landscaping, river-rock bio-swale, and a picnic area. For security and safety, a complete lighting system will be included as well as fencing to act as a barrier between the park and street.

PROJECT NEED:

The Standard - McFadden Park Project will transform the existing underutilized and poorly furnished City park located at the northeast corner of Standard and McFadden Avenue into a park with an abundance of amenities catered to serve the surrounding community.
