AVEVA Training - Application Server 2020 Virtual Instructor Led Training

Virtual Instructor-Led Training

The AVEVA™ Application Server 2020 Virtual Instructor-Led Training course is a 4-day, online instructor-led class designed to provide an overview of the features and functionality of Application Server. This course provides lectures and hands-on labs to supply and reinforce the knowledge necessary to use these features and functions for plant modeling.

The class demonstrates how to use Application Server technology to connect to field devices, process data, run scripts, handle alarms, and historize alarms and events. This course also provides a fundamental understanding of application maintenance, real-time alarm recording, and security settings, and describes how to set up redundancy for data acquisition.

Available:
December 8-11, 2020

*Please note: To secure your spot in the class, Wonderware by AVEVA requires that each attendee register online at <https://sw.aveva.com/training/wonderware> first, then contacts Wonderware California, an AVEVA Distributor to process your payment.

Operations Management Interface 2020 Virtual Instructor Led Training

Virtual Instructor-Led Training

The AVEVA™ Operations Management Interface 2020 Virtual Instructor-Led Training course is a 4-day, instructor-led class designed to provide an overview of the features and functionalities released with the AVEVA Operations Management Interface software. It covers the components and capabilities of the software, as well as topics to help you build and deploy an AVEVA Operations Management Interface visualization application for System Platform. It also introduces tools for creating graphics, visualizing alarms and events, visualizing trends and history, and implementing security in an AVEVA Operations Management Interface application. Hands-on labs are provided to reinforce the knowledge necessary to use the software.

Available:
December 14-17, 2020

*Please note: To secure your spot in the class, Wonderware by AVEVA requires that each attendee register online at <https://sw.aveva.com/training/wonderware> first, then contacts Wonderware California, an AVEVA Distributor to process your payment.

Base System Documentation for Site A, B, & Backup w/ Veeam

Base Documentation is highly recommended as it provides the basic needs to commission the system. It outlines what was done to the system(s), the passwords that were used and any next steps that need to be take. Without this documentation, it will be the responsibility of the customer to determine the proper cabling for the system. Without this documentation System support for installation and commissioning will be limited.

- System Cabling Diagram
- System Startup Procedures for a Typical Host
- Quality Assurance Documentation

Quantity	Part Number/Description	Availability*	Tax	Price	Extension
3	WWCA-VM-BASE-DOC	3 Estimated TBD	N	\$1,000.00	\$3,000.00
Line:22	Hypervisor System Base Documentation				

System Installation and Configuration Documentation for Site A & Backup w/ Veeam

Documentation details the specifics of the configuration that was done to your specific server host hardware. It would allow you to recreate the base installation of the hypervisor host system(s). This documents the configuration and settings used to create the hypervisor host system(s). With this documentation, the host system(s) can be recreated with hypervisor host system knowledge. It is responsibility of the customer to educate themselves on the operation and maintenance of hypervisor host systems. Without this documentation system support will be limited.

- Configuration of Typical Host
- Configuration of Storage RAID
- Installation and Configuration of a VM into a Host

Quantity	Part Number/Description	Availability*	Tax	Price	Extension
