## RECOMMENDED ACTION

Authorize the City Manager to execute an agreement with West Coast Arborist, Inc. for tree maintenance services for an initial 18-month term beginning July 1, 2021, and expiring December 31, 2022, in an amount of \$3,028,650, with provisions for six one-year extensions in an annual amount of \$2,019,100, exercisable by the City Manager, for a total amount not to exceed \$15,143,250 for the seven-and-a-half-year maximum term, subject to non-substantive changes approved by the City Manager and City Attorney.

## DISCUSSION

The Public Works Agency is responsible for the maintenance of approximately 50,000 parkway and street median trees, with the primary goal of preserving the integrity and health of the Santa Ana Urban Forest. Street tree pruning services have been performed by contract for the past 25 years in partnership with City staff.

West Coast Arborist, Inc. (WCA) is the current provider and has proven to reliably service the community's urban forest needs by pruning approximately 15,000 trees a year. WCA has also implemented an inventory system utilizing Global Positioning System (GPS) technology for all City street trees and prepared an inventory for the City's use. This GPS inventory has led to more efficient tree inspections and pruning, improved accuracy in record-keeping, and timely production of information relevant to service requests and liability claim investigations. Additionally, WCA provides arborist consulting services and routinely participates in City events by providing free trees and education to the public. The contract with WCA was approved in 2015 and expires on June 30, 2021.

Santa Ana Municipal Code (SAMC) Section 2-807.d for Non-Bid Purchases allows contracts to be exempted from competitive bidding through an open market purchase when vendors have been awarded a similar type of purchase contract by another public agency after going through a competitive bidding process. The City of Rancho Cucamonga, California, utilized a competitive

bidding process to award a contract for Citywide Tree Maintenance Services to West Coast Arborist, Inc. in 2019 with specifications that met the City of Santa Ana’s requirements (Exhibit 1). Staff recommends exercising the SAMC provision to award a contract to WCA utilizing the City of Rancho Cucamonga’s contract to receive the same pricing for tree services (Exhibit 2).

WCA is qualified, reputable, and has experience with contracts similar in type and size as demonstrated by their 200 municipal service contracts throughout California. They have sufficient staff, including arborists and tree trimming professionals, to maintain pruning schedules according to International Society of Arboriculture standards, as well as two local tree nurseries. They also have the ability to provide additional critical resources during emergencies such as wind or rainstorms, allowing the City to provide immediate assistance to the community.

Tree pruning makes up approximately 70 percent of the total annual tree-related services in Santa Ana and the remaining 30 percent is composed of specialty services such as crew rentals for large tree removals and emergency response. In comparing tree-pruning contracts awarded to other cities in 2020 with the proposed WCA agreement, the contract amounts for the Cities of Oxnard, Irvine and Long Beach are higher for comparable pruning services.

Exercising the City’s SAMC Non-Bid process and utilizing the contract with the City of Rancho Cucamonga is the most beneficial option for the City of Santa Ana and will provide the best quality service at a minimum cost. The table below provides the contract amounts of comparable cities based on the average tree size for grid and light pruning of trees for 2020.

**1.3 Time for Performance.** Contractor shall perform all services under this Agreement in a timely, regular basis consistent with industry standards for professional skill and care, and in accordance with any schedule of performance set forth in the Scope of Work, or as set forth in a "Schedule of Performance", if such Schedule is attached hereto as Exhibit "N/A".

In the event of the return of any of the Work Product to Contractor or its representative, Contractor shall be responsible for its safe return to City. City shall be entitled to utilize the Work Product for any and all purposes, including but not limited to constructing, using, maintaining, altering, adding to, restoring, rebuilding and publicizing the Project or any aspect of the Project.

**7.3 Title to Intellectual Property.** Contractor warrants and represents that it has secured all necessary licenses, consents or approvals to use any instrumentality, thing or component as to which any intellectual property right exists, including computer software, used in the rendering of the Services and the production of the Work Product and/or materials produced under this Agreement, and that City has full legal title to and the right to reproduce any of the Work Product. Contractor shall defend, indemnify and hold City, and its elected officials, officers, employees, servants, attorneys, designated volunteers, and agents serving as independent contractors in the role of City officials, harmless from any loss, claim or liability in any way related to a claim that City's use is violating federal, state or local laws, or any contractual provisions, relating to trade names, licenses, franchises, patents or other means of protecting intellectual property rights and/or interests in products or inventions. Contractor shall bear all costs arising from the use of patented, copyrighted, trade secret or trademarked documents, materials, software, equipment, devices or processes used or incorporated in the Services and materials produced under this Agreement. In the event City's use of any of the Work Product is held to constitute an infringement and any use thereof is enjoined, Contractor, at its expense, shall: (a) secure for City the right to continue using the Work Product by suspension of any injunction or by procuring a license or licenses for City; or (b) modify the Work Product so that it becomes non-infringing. This covenant shall survive the termination of this Agreement.

Contractor shall pay all required taxes on amounts paid to Contractor under this Agreement, and to defend, indemnify and hold City harmless from any and all taxes, assessments, penalties, and interest asserted against City by reason of the independent contractor relationship created by this Agreement. Contractor shall fully comply with the workers' compensation law regarding Contractor and Contractor's employees

**9. Confidentiality.** Contractor may have access to financial, accounting, statistical, and personnel data of individuals and City employees. Contractor covenants that all data, documents, discussion, or other information developed or received by Contractor or provided for performance of this Agreement are confidential and shall not be disclosed by Contractor without prior written authorization by City. City shall grant such authorization if applicable law requires disclosure. All City data shall be returned to City upon the termination of this Agreement. Contractor's covenant under this Section shall survive the termination of this Agreement. This provision shall not apply to information in whatever form that is in the public domain, nor shall it restrict the Contractor from giving notices required by law or complying with an order to provide information or data when such an order is issued by a court, administrative agency or other legitimate authority, or if disclosure is otherwise permitted by law and reasonably necessary for the Contractor to defend itself from any legal action or claim.

**10. Conflict of Interest.**

**10.1** Contractor covenants that it presently has no interest and shall not acquire any interest, direct or indirect, which may be affected by the Services, or which would conflict in any manner with the performance of the Services. Contractor further covenants that, in performance of this Agreement, no person having any such interest shall be employed by it. Furthermore, Contractor shall avoid the appearance of having any interest, which would conflict in any manner with the performance of the Services. Contractor shall not accept any employment or representation during the term of this Agreement which is or may likely make Contractor "financially interested" (as provided in California Government Code §§1090 and 87100) in any decision made by City on any matter in connection with which Contractor has been retained.

**10.2** Contractor further represents that it has not employed or retained any person or entity, other than a *bona fide* employee working exclusively for Contractor, to solicit or obtain this Agreement. Contractor has not paid or agreed to pay any person or entity, other than a *bona fide* employee working exclusively for Contractor, any fee, commission, gift, percentage, or any other consideration contingent upon the execution of this Agreement. Upon any breach or violation of this warranty, City shall have the right, at its sole and absolute discretion, to terminate this Agreement without further liability, or to deduct from any sums payable to Contractor hereunder the full amount or value of any such fee, commission, percentage or gift.

  
Vendor Initials

**10.3** Contractor has no knowledge that any officer or employee of City has any interest, whether contractual, noncontractual, financial, proprietary, or otherwise, in this transaction or in the business of Contractor, and that if any such interest comes to the knowledge of Contractor at any time during the term of this Agreement, Contractor shall immediately make a complete, written disclosure of such interest to City, even if such interest would not be deemed a prohibited "conflict of interest" under applicable laws as described in subsection 10.1.

## **11. Indemnification.**

**11.1** To the maximum extent permitted by law, the Contractor shall defend, indemnify and hold the City, and its elected officials, officers, employees, servants, volunteers, and agents serving as independent contractors in the role of City officials, (collectively, "Indemnitees"), free and harmless with respect to any and all damages, liabilities, losses, reasonable defense costs or expenses (collectively, "Claims"), including but not limited to Claims relating to death or injury to any person and injury to any property, which arise out of, pertain to, or relate to the acts, omissions, activities or operations of Contractor or any of its officers, employees, subcontractors, Contractors, or agents in the performance of this Agreement. Contractor shall defend Indemnitees in any action or actions filed in connection with any such Claims with counsel of City's choice, and shall pay all costs and expenses, including actual attorney's fees and experts' costs incurred in connection with such defense. The indemnification obligation herein shall not in any way be limited by the insurance obligations contained in this Agreement provided, however, that the Contractor shall have no obligation to indemnify for Claims arising out of the sole negligence or willful misconduct of any of the Indemnitees.

**11.2** Nonwaiver of Rights. Indemnitees do not, and shall not, waive any rights that they may possess against Contractor because of the acceptance by City, or the deposit with City, of any insurance policy or certificate required pursuant to this Agreement.

**11.3** Waiver of Right of Subrogation. Except as otherwise expressly provided in this Agreement, Contractor, on behalf of itself and all parties claiming under or through it, hereby waives all rights of subrogation against the Indemnitees, while acting within the scope of their duties, from all claims, losses and liabilities arising out of or incident to activities or operations performed by or on behalf of the Contractor.

**11.4** Survival. The provisions of this Section 11 shall survive the termination of the Agreement and are in addition to any other rights or remedies which Indemnitees may have under the law. Payment is not required as a condition precedent to an Indemnitee's right to recover under this indemnity provision, and an entry of judgment against Contractor shall be conclusive in favor of the Indemnitee's right to recover under this indemnity provision.

## **12. Insurance.**

Contractor shall have no other claim against City by reason of such termination, including any claim for compensation. ## AGREEMENT TO PROVIDE TREE MAINTENANCE SERVICES

THIS AGREEMENT is made and entered into this 17th day of November, 2020 by and between West Coast Arborists, Inc. (“Contractor”), and the City of Santa Ana, a charter city and municipal corporation organized and existing under the Constitution and laws of the State of California (“City”).

### RECITALS

- A. In order to preserve the integrity and health of the Santa Ana Urban Forest, the City desires to retain a Contractor having special skill and knowledge in the field of tree maintenance for the maintenance of approximately 50,000 parkway and street median trees, to be overseen by the Maintenance Service Division of the Public Works Agency.
- B. The City currently has an agreement with Contractor for these services. This agreement expires on June 30, 2021.
- C. Based on the City’s level of satisfaction with Contractor’s performance, the City wishes to enter into another agreement with Contractor for tree maintenance services without competitive bidding, as permitted by Section 2-807 of the Santa Ana Municipal Code.
- D. Section 2-807(d) exempts from competitive bidding purchases from vendors whose names are on current established lists and have been awarded the same type of contract by another public agency following a competitive bidding process determined by the City’s purchasing manager to be substantially equivalent to the City’s.
- E. On December 4, 2019, the City of Rancho Cucamonga awarded an agreement (No. 19-187) to Contractor for street tree maintenance services after a competitive bidding process that was determined by the City’s purchasing manager to be substantially equivalent to the City’s process.
- F. Accordingly, the City wishes to enter into an agreement with Contractor for tree maintenance services based on the same scope of services and pricing. In undertaking the performance of this Agreement, Contractor represents that it is knowledgeable in its field and that any services performed by Contractor under this Agreement will be performed in compliance with such standards as may reasonably be expected from a professional contracting firm in the field.

**NOW THEREFORE**, in consideration of the mutual and respective promises, and subject to the terms and conditions hereinafter set forth, the parties agree as follows:

## **1. SCOPE OF SERVICES**

Contractor shall perform the services described in Contractor's proposal dated July 23, 2019 that was submitted by Contractor in response to Request for Proposal No. 19/20-007 for Citywide Tree Maintenance Services by the City of Rancho Cucamonga. Such proposal is attached as Exhibit A and incorporated in full. Contractor expressly consents to the use of this proposal for all purposes related to this Agreement.

## **2. COMPENSATION**

- a. City agrees to pay, and Contractor agrees to accept as total payment for its services for City, the rates and charges identified in Exhibit B. The total amount to be expended under this Agreement for the eighteen (18) month period ending December 31, 2022 shall not exceed \$3,028,650. For each one-year extension entered into by the parties pursuant to Section 3 below, the annual amount to be expended shall not exceed \$2,019,100.
- b. Payment by City shall be made within forty-five (45) days following receipt of proper invoice evidencing work performed, subject to City accounting procedures. Payment need not be made for work which fails to meet the standards of performance set forth in the Recitals and Scope of Work, which may reasonably be expected by City.

## **3. TERM**

This Agreement shall commence on July 1, 2021 and terminate on December 31, 2022, unless terminated earlier in accordance with Section 17, below. Parties to this Agreement shall have the option to renew in one (1) year increments up to a total of six (6) additional years, unless sooner terminated as provided in Section 17. Options to renew are contingent upon the City Manager's approval, and in accordance to all terms and conditions stated herein unless otherwise provided in writing by the City.

## **4. PREVAILING WAGES**

Contractor is aware of the requirements of California Labor Code Section 1720, et seq., and 1770, et seq., as well as California Code of Regulations, Title 8, Section 16000, et seq., ("Prevailing Wage Laws"), which require the payment of prevailing wage rates and the performance of other requirements on "public works" and "maintenance" projects. If the services being performed are part of an applicable "public works" or "maintenance" project, as defined by the Prevailing Wage Laws, and the total compensation is \$1,000 or more, Contractor agrees to fully comply with such Prevailing Wage Laws. Contractor shall defend, indemnify and hold the City, its elected officials, officers, employees and agents free and harmless from any claim or liability arising out of any failure or alleged failure to comply with the Prevailing Wage Laws.

## **5. INDEPENDENT CONTRACTOR**

Contractor shall, during the entire term of this Agreement, be construed to be an independent contractor and not an employee of the City. This Agreement is not intended nor shall it be construed to create an employer-employee relationship, a joint venture relationship, or to allow the City to exercise discretion or control over the professional manner in which Contractor performs the services which are the subject matter of this Agreement; however, the services to be provided by Contractor shall be provided in a manner consistent with all applicable standards and regulations governing such services. Contractor shall pay all salaries and wages, employer's social security taxes, unemployment insurance and similar taxes relating to employees and shall be responsible for all applicable withholding taxes.

## **6. OWNERSHIP OF MATERIALS**

This Agreement creates a non-exclusive and perpetual license for City to copy, use, modify, reuse, or sublicense any and all copyrights, designs, and other intellectual property embodied in plans, specifications, studies, drawings, estimates, and other documents or works of authorship fixed in any tangible medium of expression, including but not limited to, physical drawings or data magnetically or otherwise recorded on computer diskettes, which are prepared or caused to be prepared by Contractor under this Agreement ("Documents & Data"). Contractor represents and warrants that Contractor has the legal right to license any and all Documents & Data. Contractor makes no such representation and warranty in regard to Documents & Data which were provided to Contractor by the City. City shall not be limited in any way in its use of the Documents and Data at any time, provided that any such use not within the purposes intended by this Agreement shall be at City's sole risk.

## **7. INSURANCE**

Prior to undertaking performance of work under this Agreement, Contractor shall maintain and shall require its subContractors, if any, to obtain and maintain insurance as described below:

- a. **Commercial General Liability Insurance.** Contractor shall maintain commercial general liability insurance naming the City, its officers, employees, agents, volunteers and representatives as additional insured(s) and shall include, but not be limited to protection against claims arising from bodily and personal injury, including death resulting therefrom and damage to property, resulting from any act or occurrence arising out of Contractor's operations in the performance of this Agreement, including, without limitation, acts involving vehicles. The amounts of insurance shall be not less than the following: single limit coverage applying to bodily and personal injury, including death resulting therefrom, and property damage, in the total amount of \$1,000,000 per occurrence, with \$2,000,000 in the aggregate. - d. If Contractor is or employs a licensed professional such as an architect or engineer: Professional liability (errors and omissions) insurance, with a combined single limit of not less than \$1,000,000 per claim with \$2,000,000 in the aggregate.

  - (i) Contractor shall maintain all insurance required above in full force and effect for the entire period covered by this Agreement.
  - (ii) Certificates of insurance shall be furnished to the City upon execution of this Agreement and shall be approved by the City.

- f. If Contractor fails or refuses to produce or maintain the insurance required by this section or fails or refuses to furnish the City with required proof that insurance has been procured and is in force and paid for, the City shall have the right, at the City's election, to forthwith terminate this Agreement. Such termination shall not affect Contractor's right to be paid for its time and materials expended prior to notification of termination. Contractor waives the right to receive compensation and agrees to indemnify the City for any work performed prior to approval of insurance by the City.

## **8. INDEMNIFICATION**

Contractor agrees to defend, and shall indemnify and hold harmless the City, its officers, agents, employees, Contractors, special counsel, and representatives from liability: (1) for personal injury, damages, just compensation, restitution, judicial or equitable relief arising out of claims for personal injury, including death, and claims for property damage, which may arise from the negligent operations of the Contractor or its subcontractors, agents, employees, or other persons acting on their behalf which relates to the services described in section 1 of this Agreement; and

Contractor shall allow a representative of the City to examine, audit, and make transcripts or copies of such records and any other documents created pursuant to this Agreement during regular business hours. Contractor shall allow inspection of all work, data, documents, proceedings, and activities related to this Agreement for a period of three (3) years from the date of final payment to Contractor under this Agreement.

## **11. CONFIDENTIALITY**

Understanding the City's commitment to the residents, we are hopeful to begin a partnership with the City in providing quality tree maintenance & management services.

West Coast Arborists, Inc. (WCA) has a 47-year track record of working for more than 300 California municipalities and various public agencies. Our tree maintenance program includes a well-defined Quality Control Plan, which incorporates certified personnel, safety, pruning specifications, equipment, hours of operation, public relations, traffic control, scheduling of work, computerized billing, and public convenience.

Our company has been in business since 1972 and is licensed by the California State Contractors License Board under license #366764 with a local office and yard in the Cities of Anaheim, Ontario and Grand Terrace. We have held this license in good standing since 1978. The license specializes in Class C61 (Tree Service) as well as Class C27 (Landscaping). Also, we have an A+ rating from the bonding board. We are a California Corporation with Federal Tax ID Number #95-3250632. We currently employ over 80 ISA Certified Arborists and over 140 Certified Treeworkers, as recognized by the Western Chapter of the International Society of Arboriculture.

In addition to the references listed in our Proposal, we are currently under contract with the Cities of Upland, Fontana, San Dimas, and Claremont, providing various tree maintenance services. We would encourage your agency to contact these Cities or any of the listed references. WCA has reviewed and agrees to the City's specifications for tree care and has no exceptions. The specifications are incorporated in its entirety as part of our proposal and become the Scope of Work for tree care services.

As a result of the recent budget issues, municipalities are being stretched to their financial limits. City and City administrators are faced with budget reductions leading to staff cut backs, decreased levels of service, and antiquated equipment. The resulting trend of lower service levels needs to be turned around. We believe in an Interactive Partnership with the community, where municipalities can confidently rely on WCA to assist them with any of their tree care needs.

Our goals in urban tree care are to extend the life of all trees, safeguard public safety, and produce a reliable source of shade, beauty and the other non-commercial benefits that result from healthy trees in parks and Agency right-of-ways. Obviously, this cannot be accomplished without the City's valued input or without community involvement.

**Community:** The community consists of everyone that cares about trees. They include residents, business owners, community groups, consumers, schools, and citizen arborists. We believe the community is the actual customer. We strive to provide the highest level of service in the safest manner possible in an effort to create a beautiful environment. In addition, as a valuable resource within the community we are able to offer extraordinary services to the public including, but not limited to, arboricultural education, participation in Arbor Day and other City events, and special community projects.

**City Administration:** City staff has the very important task of managing trees as an ecosystem, taking into consideration specific biological, social and economic conditions. They must ensure that the best methods of tree care are practiced in the community, that the lives of the trees are extended beyond average, and that the taxpayers receive the most from their investment in trees.

**West Coast Arborists, Inc. (WCA):** We have the challenge of meeting the community's needs, not only in tree care, but also in other aspects. However, unlike most firms, we believe to be a valuable resource in that we have the qualifications and corporate capabilities to meet the community's needs and beyond. Our Certified personnel ensure the community that the work performed will be in accordance with today's standards. The collection of equipment allows us to dedicate specific pieces to the City. Our support staff aids the field team with information management, which provides communities with a complete, comprehensive urban tree care program.

**WEST COAST ARBORISTS, INC. (WCA)** is a family-owned and operated union company employing over 950 full-time employees providing tree maintenance and management services. We are proudly serving over 300 municipalities and public agencies. We provide superior and safe tree care operations seven days a week, 24 hours a day throughout California and Arizona.

## PRUNE CLASSIFICATIONS

**Grid Prune-** Grid tree pruning is based on pruning in pre-designed districts, or grids on a set cycle and includes all trees (small, medium and large-sized.) Pruning will include structural pruning, crown raising, and crown cleaning in accordance with the standards set forth by the International Society of Arboriculture Pruning Standards (Best Management Practices) and shall have no more than 25% of the live foliage removed at a given time.

**Full Prune/Crown Reduction-** Crown reduction is performed when conditions within the crown of a hardwood tree are such that the entire tree needs to be reduced. A full prune is recommended when the primary objective is to maintain or improve tree health and structure, and includes pruning to reduce overall canopy mass and excessive wood weight. Trees that are identified for a full prune shall have more than 25% of the live foliage removed at a given time.

## Service Requests

A Service Request Prune includes tree maintenance services on designated tree(s) as ordered by the Agency Arborist or designee. Pruning may include structural pruning, crown raising, crown cleaning or pruning to reduce/restore the crown. Whichever work type is ordered by the Agency, pruning will be performed in accordance with the standards set forth by the International Society of Arboriculture Pruning Standards and the Best Management Practice, Tree Pruning Guidelines. Work assignments from the Agency may require mobilization from one tree site to another within the Agency.

## Line Clearance

Trees that interfere or have the possibility of interfering with utility lines will be trimmed in a manner to achieve the required clearances as specified and in accordance with the California Public Utilities Commission. It is our goal to protect the current health and condition of the tree and to maintain its symmetry and direct growth away from the utility lines.

## Small Tree Care

Proper pruning and care during the early stages of the tree's life will save money in the future, and create a safer, more beautiful, healthy, easy-to-maintain tree. We believe that tree care that is performed early will affect its shape, strength and life span. Our specialized small tree care team consists of certified personnel trained to perform the following:

- Selective structural pruning
- Removal of dead, interfering, split and/or broken limbs
- Pre-conditioning the water retention basin built around the tree
- Staking or re-staking
- Adjusting tree ties
- Adjusting trunk protectors
- Weed abatement

# A SERVICES APPROACH

## Palm Trunk Skinning

Palm tree skinning consists of the removal of dead frond bases (only), at the point they make contact with the trunk without damage to the live trunk tissue.

## Root Pruning

We strongly recommend against any root pruning, however, should the Agency elect to proceed, we recommend that it be done no closer than 3 times the diameter of the trunk. Roots will be pruned to a depth of approximately 12 inches by cleanly slicing through the roots, so as not to tear or vibrate the root causing damage to the tree. The excavated area will be backfilled with native soil and debris will be hauled away.

## Tree Removal Operations

With a minimum of 48 hours advanced notice, WCA will inform Underground Service Alert (USA) of the location of work for the purpose of identifying any and all utility lines. The removal process consists of lowering limbs delicately onto the ground to prevent any hardscape damage. Immediately following the removal, the stump will be ground down, if ordered to do so and with proper USA notification.

## Tree Planting

We can replace trees that have been removed and plant new trees in accordance with specifications. We are prepared financially and logistically to acquire and purchase selected tree species for tree planting. At a minimum of 48 hours in advance we will inform Underground Service Alert (USA) of the location of work for the purpose of identifying any and all utility lines. A well-trained planting team will perform the soil preparation and installation of the tree.

## Tree Watering

Tree watering will be performed by a full-time, WCA team member on various routes, when requested by the Agency. This team will also be responsible for reporting special care needs to the small tree care team. This could include reporting weeds, soil that has settled, and/or staking and tying needs.

## Emergency Response

We are prepared for emergency calls 24 hours a day, 7 days a week, including holidays. The toll free number is 866-LIMB-DOWN (866-546-2369). This number will be provided to the Agency, Police Department and/or Fire Department. Our emergency response team will do what is necessary to render the hazardous tree or tree-related condition safe until the following workday.

## Crew Rental

Due to our vast amount of resources, including our specialty equipment and qualified personnel we are able to extend our commitment to our customers by providing various miscellaneous services outside of the most common tree maintenance services:

- Flag hanging
- Holiday light installation
- Changing ball park lights
- Misc. use of aerial towers and cranes (including equipment rental)
- Crown reduction
- Crown restoration

## Arborist Reports

We have full-time Certified Arborists on staff that can prepare detailed arborist reports, tree evaluations and site inspections based on your specific needs. Reporting can be generated for one tree or an entire selection and is handled on a case-by-case basis.

## Plant Health Care

**Tim Crothers**, Plant Health Care Manager

- ISA Board Certified Master Arborist WE-7655 BUM
- DPR Qualified Pest Control Applicator #145321
- QAL Category B & D

Our PHC program managed by Tim Crothers goes beyond standard chemical applications. We have developed an efficient Integrated Pest Management Program (IPM) that requires diagnosis before treatment. WCA is staffed with licensed applicators and advisors that are environmentally conscious as well as compliant with the California Department of Pesticide Regulation. This service allows us to provide you with:

- Proper diagnosis based on on-site inspection with laboratory testing when necessary
- Proactive and preventative recommendations that reduce the amount of potential pest and disease issues
- Follow-up evaluations to ensure that the recommended treatments result in a healthy and balanced urban forest

### Shot Hole Borer

The Polyphagous Shot Hole Borer (PSHB) is a new pest in Southern California. This boring beetle drills into trees and brings with it a pathogenic fungus (*Fusarium euwallacea*), as well as other fungal species. When heavily infested, the resulting Fusarium causes the decline and death of trees. Over 120 different tree species are affected in Southern California and over 30 reproductive hosts are of high concern. As tree care professionals, we have a responsibility to understand and report when we see a tree we are working on infested with PSHB

## ABILITY TO ACQUIRE, PURCHASE & STAGE TREES

Cities expect the highest quality of new trees, proven varieties and an organization with the knowledge and skills to provide them with the latest and most reliable information available related to tree planting. By meeting these expectations, we're able to contribute to the success of reforestation projects within communities. In order to complete successful tree planting programs, cities can rely on us to locate, acquire and purchase different tree species.

As part of our Corporate Capability, we are financially able to purchase large quantities of trees for planting projects. Being familiar with over 50 nurseries in California, allows us to obtain the best tree available from a broad and plentiful stock. The process by which we obtain trees is quite simple: First, we utilize our database of nurseries, and contact several of them requesting specific trees with their prices.

Upon locating the availability of trees, we then perform a tree pre-inspection at the nursery. When time is of the essence, nurseries will provide us with photos either by mail or by e-mail for our review. Once the trees are purchased, and depending on the size of the project, we have them delivered to our facility in Placentia, Brea, or if possible, at a staging area within the Agency. It is through this process that we have planted an average of 14,000 trees for all of our customers each year during the past three years.

## GREEN WASTE

WCA's commitment to be a socially responsible corporate partner to our customers and communities is exemplified in our Recycling Program. With the steadily-increasing concern for the ecological health of our communities, WCA has embarked on a landfill diversion process where all material is taken to recycling facilities where it is used in the production of soil amendments. We are committed to taking all recyclable materials removed from the trees trimmed for the duration of this project to a recycling center for processing. Verification of amounts recycled will be obtained and reported by WCA via ArborAccess for the purpose of meeting the goals of the State for reducing landfill usage.

**MULCH** is made from coarse ground branches and leaves. It should be spread on the ground at a rate of six to twelve inches for best effect. Fresh mulch will deplete nitrogen from the surface of the soil which will reduce unwanted weeds. Once the mulch has decayed, it returns nitrogen which helps build the quality of soil for plants. A large amount of tree debris is processed by WCA and used in large scale mulching projects for establishing native plants in open space areas.

**COMPOST** is made from fine ground branches, leaves or other organic material. When mixed with oxygen and water, the organic material will decay or "compost." A finished compost is excellent for turning into the top layer of soil and will add nitrogen and increase the water holding capacity of soil. You can make compost at home in a pile in your yard or in a bin that you make or purchase. Large scale composting is done at regional recycling facilities.

**FIREWOOD** is traditionally the most common use of large branches and logs. Firewood is used to heat homes during winter months. WCA takes logs to a yard in Irvine where a firewood retailer splits and resells the firewood to local residents.

**LOGS TO LUMBER** is an old idea with a new approach by converting Agency trees into usable lumber. WCA worked on a twelve month trial program with the California Department of Forestry and Fire Protection to create an environmentally sound and socially responsible alternative to importing lumber from other areas, reducing our demand on trees from natural forests.

## LOGS TO LUMBER *Recycling the Urban Forest*

"Logs to Lumber" evolved from a 12-month trial program where West Coast Arborists, Inc. (WCA) worked with the California Department of Forestry and Fire Protection (CDF).

<p><b>The Goal</b> is to create an environmentally sound and socially responsible alternative to importing lumber from other areas and to reduce the demand on trees from natural forests.</p>	<p><b>Reducing</b> waste from the urban forest.</p> <p><b>Converting</b> trees removed into useable lumber.</p> <p><b>Assisting</b> with landfill diversion (AB939).</p> <p><b>Giving</b> back to the Community!</p>
----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

The program proves to be successful and now WCA transports suitable logs to our wood recycling center, Woodhill Firewood.

## Public Notification

Upon Agency staff approval, WGA will post a door hanger notice prior to commencement of grid pruning (within 24-48 hours). After tree plantings, door hangers will be provided to residents instructing them on the proper care for their newly planted tree. For more comprehensive outreach we can also submit a press release for special projects or routine maintenance. The Agency may modify the procedures and materials to which we notify residents.

## Communication Systems

Our use of modern and reliable communication systems affect our daily job performance by increasing our efficiency. Management and Field Personnel utilize smart phones as both navigational and communication devices in the field. Smart phones have proven to be a convenient method to input data as related to tree inventories, daily work records, timesheets, photos, and billing information; eliminating the need to handwrite data and improving customer service by minimizing response time.

## Permits and Licensing

WGA will procure a City Business License as necessary and any "no-fee" permits prior to commencement of work. Permits (i.e., encroachment, traffic control, etc.) requiring fees will be charged back to the Agency.

## Right-of-Way

## ARBORACCESS FEATURES

- Ease of use
- Create work orders
- View tree site details
- View work history
- View invoices
- Mobile app
- Live data
- GIS/GPS mapping

## LIST TRACKING SYSTEM

The List Tracking Report in ArborAccess is a useful tool in the management of incoming work. This report allows both parties to track specific jobs as they are ordered by the Agency. Proper use of this system enables the Agency and WCA to track the completion of work that is ordered.

# INVENTORY MANAGEMENT

## INVENTORY SOFTWARE- ARBORACCESS

Our tree management program sets us apart from other companies. With nearly 2,000 active users, ArborAccess and our mobile app will help you easily manage your urban forest with ease and convenience. Tree site attributes include location (utilizing GPS coordinates), species type, and parkway size. Features allow you to view and edit work history records and create work orders directly from the field, all from our secure cloud.

The information contained in ArborAccess is live data that can also be linked directly to a GIS program, such as ArcView, for geo-coding purposes and can assist your Agency in meeting GASB34 requirements. ArborAccess provides an unlimited resource of information regarding your urban forest.

## SOFTWARE TRAINING

Our IT Department is based out of our corporate office in Anaheim, CA with regional offices located throughout California and Arizona. Each office has the ability to provide software training to our customers. We are also available to provide training sessions on-site at the customer's discretion. On-site training is proven to be effective as it provides a guided hands-on experience.

We offer periodic tree maintenance and management workshops each year. These free workshops are provided to our customers regionally and educate over 250 people annually. They have proven to be a great round-table and networking opportunity for the different agencies in attendance. Presentations are provided by WCA management staff and complimented with guest speakers in the industry. Certified Arborists and Tree Workers who attend are eligible to receive continuing education credits (CEU's) from the International Society of Arboriculture.

The success of any urban forest program depends on the proper management of information. Unlimited telephone and/or email support is available to answer technical questions and aid staff in the use of the software system. Software training and support is included in the cost associated with the inventory data collection.

WCA has completed **300+** GPS tree inventories.

## BILLING

WCA, Inc. operates a modern invoicing system that is updated on a daily basis. Progress billings will be submitted to the Customers on a bi-weekly basis, unless otherwise requested. Invoices will reflect an amount complete for the billing period, along with a year-to-date total for that job. Each billing will include a listing of completed work by address, tree species, work performed and appropriate data acceptable to the customer. This information will be supplied in hardcopy and immediately accessible on ArborAccess. Job balances reflecting the percent of completion for each job can be viewed on ArborAccess.

## SAMPLE MANAGEMENT TOOLS

### DETAILED TREE SITE CHARACTERISTICS

The advanced technology provides a valuable tool to urban forestry professionals by displaying specific tree site information along with a representative photograph of the species type and a recommended maintenance field. ArborAccess' built-in quality control features assist in data accuracy. As maintenance is performed, the work history is updated and accompanied with bi-weekly invoices. This process eliminates the need for dual-inputting and helps keep the tree inventory current and accurate.

### MAINTENANCE RECORDS

Accurate maintenance records for each location oftentimes can assist the Agency with liability claims. Maintaining a detailed history of the work performed at each location demonstrates good faith in preserving its urban forest. It is imperative that work requests are pulled from the system prior to the work being performed, otherwise inventory accuracy is not guaranteed.

This type of information is valuable in the event of an insect infestation, deadly disease, or even estimating future maintenance costs. In addition, an analysis can be performed to evaluate the history of the performance of a particular species within your Agency.
