Planning Commission Action Items - The Planning Commission will hold a Public Hearing to receive public testimony, and will make a recommendation on the items described below. Their recommendation will be forwarded to the City Council at a later date for final determination.

What is the Proposed Project?

The project applicant proposes to construct a 226-unit multiple-family residential community on a 3.59-acre property located at 651 West Sunflower Avenue. In order to facilitate the construction of the project, the applicant is requesting approval of General Plan Amendment No. 2019-01 to amend the General Plan land use designation from Low-Density Residential (LR) to Urban Neighborhood (UN) and to update text portions of the City's Land Use Element to reflect this change. The applicant is also requesting approval of Amendment Application No. 2019-01 to rezone the above said property from single-family

residential (R-1) to Specific Development No. 94 (SD-94). The purpose of the specific development plan is to permit flexibility in site planning while assuring high quality development.

Environmental Impact

-In accordance with the California Quality Environmental Act (CEQA), a Mitigated Negative Declaration (MND), Environmental Review No. 2018-75 was prepared for the project to analyze the potential impacts of the project and identify measures to mitigate the environmental effects.
