Please forward this to the Planning Commission & Staff

Dear Chair McGloughlin and members of the Planning Commission;

It is my understanding that an item will come before you this evening requesting an expedited calendar for the approval of the above project. I would respectfully request that in the interest of making an informed decision on a project of such a magnitude that you would reject this request. Santa Ana bears the burden of far too many developments where a "rush to judgement" has resulted in very poor planning decisions leaving our city hobbled for decades with the resulting consequences for such hasty decisions.

If the project is as worthy as the developer feels it is.....then it will prevail on its own merits not as the result of a process which has the potential to appear manipulated beyond measure.

Thank you for your careful consideration.

Sincerely,

Timothy Rush  
Past President of Washington Square Neighborhood Association  
Past President of Wilshire Square Neighborhood Association  
Neighborhood Hero, City of Santa Ana
