DISCUSSION

The scope of work for the Santa Ana Zoo Goat Trail FY 2021-22 project includes excavation, grading to improve accessibility, a freestanding steel goat trail structure, a new theme element at the goat interaction yard, expanded animal interaction yards, new and rehabilitated landscape at area of work, trees, irrigation, relocation of existing

signage, and replacement of existing and new storm drain basins to improve drainage (existing storm drain system to remain).

The project design expands opportunities for goats to express natural behaviors via elevated structural elements that encourage and display their climbing skills; at the same time, it creates an immersive farm environment for human participants. Pathway and drainage improvements, area grading, and signage relocation will increase overall farm accessibility; expanded habitats will improve animal welfare; and new landscaping and irrigation will beautify the space. The Goat Trail project will contribute to the Zoo's revitalization and enhance the Zoo's ability to empower its community to save wildlife and wild spaces through fun, adventure, and learning.

Public Outreach and Contractor Participation

To provide an opportunity for local vendors to submit bids, the City notified a total of 27 regional vendors via PlanetBids, many of which are Santa Ana based. Three vendors requested bidding documents, and a total of three bids were received. Bids were not received from any Santa Ana contractors.

As legally required, a Notice Inviting Bids was advertised in the Orange County Register newspaper on March 24 and March 31, of 2022. The project was also advertised in PlanetBids from March 22, 2022 through April 12, 2022. Bids were received electronically via PlanetBids on April 12, 2022.

2	G.B. Cooke, Inc.	Fullerton	\$721,531
