GOVERNMENT CODE §84308 APPLIES: No

DISCUSSION

Santa Ana Police Department personnel frequently come into contact with bloodborne pathogens, narcotics, and harmful chemicals while on patrol, processing crime scenes, and during the intake process. Nitrile gloves are durable and resistant to various chemicals, narcotics, and other safety hazards that can cause cuts or pierce Officer's hands. While handling evidence, staff must also wear gloves to avoid any cross contamination. Additionally, OSHA Title 29 of the Code of Federal Regulations (CFR), Bloodborne Pathogens, requires the use of nitrile gloves for safety. Therefore, it is essential for patrol, crime scene investigators, and correctional officers to wear gloves that protect from these exposures.

The Invitation for Bids (IFB) No. 23-139 was advertised on August 15, 2023, on the City's online bid and management publication system. A summary of the Invitation for Bid and bids received is as follows:
