Famcon Pipe & Supply, Inc.	Oxnard, CA
Ferguson Enterprises, LLC	Santa Ana, CA

GOVERNMENT CODE §84308 APPLIES: No

DISCUSSION

The Public Works Agency (PWA) oversees and maintains the daily operations of the water system. The City's water system is composed of approximately 478 miles of water mains, supplying the City's drinking water, serving 333,000 residents and businesses of Santa Ana. The Water Resources Division maintains water service connections and uses industry standard Type K copper tubing when repairing service leaks. Historically, copper fittings have been stocked at the City Yard in order to address service leaks quickly, avoid disruption to the public, and used as needed by the Water Resources Division.

Prior to publishing bids, the City's Finance and Management Services Agency (Finance) Purchasing Division works with end user to determine department needs for supplies and materials. The availability of raw materials and lead times are also factored when establishing contract terms. In the case of purchasing copper tubing, Finance and PWA staff determined the contract term of one-year and four, one-year renewal options as the most responsive term for potential market fluctuation.

The previous aggregate contract lasted five years, utilizing four vendors, and expired on January 31, 2025. In response to the expiration and in an effort to keep contracts competitive, Invitation for Bids (IFB) No. 24-095 was issued on October 2, 2024, on the City’s online bid management and publication system. A summary of vendor participation and results is as follows:

- 92 Vendors notified
- 12 Santa Ana vendors notified
- 21 Vendors downloaded the bid packet
- 4 Bids received
- 1 Bid received from Santa Ana vendors

Bids were solicited, opened on October 30, 2024, and evaluated (Exhibit 1). Four bids were submitted by the IFB deadline and all were determined to be responsive to the specifications and met the City’s requirements. To ensure sufficient resources are available at all times, staff recommends establishing a list consisting of the three lowest responsive vendors by awarding aggregate Purchase Order Contracts to Action Plumbing Supply, LLC, Famcon Pipe & Supply, Inc., and Ferguson Enterprises, LLC.

ENVIRONMENTAL IMPACT

There is no environmental impact associated with this action.

FISCAL IMPACT

Funds are budgeted and available for expenditure in the Fiscal Year 2024-2025 budget and subsequent fiscal years will be included in the proposed budgets for City Council consideration. The funds will be budgeted and available for this item in the accounts below.
