Re: Overnight large vehicle (RV) temporary permit parking according to MC Sec. 36-153

Honorable Mayor and City Council,

I would like to know if the process, form and fee for Santa Ana resident temporary overnight large vehicle (RV) permit parking according to **MC Sec. 36-153** has been finalized.

My understanding, at the time that the Council passed this ordinance, is that a process, form and fee would be developed and made available for the many Santa Ana residents who have RV's and must load and unload these for a family trip.

According to MC Sec. 36-153 –

(a)The City Manager has the authority to adopt procedural rules and regulations governing the permit process, and to issue a parking permit for the parking of a **recreational vehicle** on a public street to any resident of the City

..

Additionally, I would like to know how a resident would easily access this information.

Your help in clarifying this issue would be greatly appreciated.

Please advise.

Thank you,
Mike Tardif

SANTA ANA BUSINESS COUNCIL, INC
Promoting Business and Community

February 24, 2021

City of Santa Ana
c: City Manager's Office and Santa Ana Police Department
20 Civic Center Plaza
Santa Ana, CA 92701

Dear City of Santa Ana:

The DTSA Bridal/ Quinceañera Association has been re-activated and is excited to share updates with you as well as **request your support**. The pandemic has devastated our businesses for nearly a year and we simply cannot continue to sustain our businesses unless we have a significant shift. We are seeking your support during this transformational pivot as we innovate our business approach and adapt to new technology.

The pandemic has taught us to be innovative and in response, we are planning several marketing campaigns that will shed positive light to the bridal and quinceañera businesses in Downtown while preserving Covid **safety protocols**.

The first marketing campaign is to host a **VIRTUAL Bridal/Quince Fashion Show on Sunday, March 21, 2021** from 2pm-3pm live-streamed through Facebook Live and later uploaded to Youtube. Please note that live audience will not be invited or allowed during the virtual show, the location will not be announced. The only attendees will be the ten (10) business owners and their models, including transgender models from TransLatinx (nonprofit in DTSA). Models will prepare inside the place of business and come out to the stage only for their 1-minute walk. The virtual show will display bridal dresses, quinceañera dresses, and suits, for a total of 45-60 minutes. Thereafter, the video recording could be converted into small commercials or videos for individual business use. This virtual fashion show will have a positive impact to our businesses and **we kindly request your support**.

A small street closure is needed for the small stage for the models on 4th Street between Broadway & Sycamore (1 block street closure). The set-up & tear down will take three hours total, but the street closure would be needed from 8am-5pm (to avoid cars from parking in the stalls). **Your support is again kindly requested for the street closure and your support for this dire marketing opportunity.**

Simultaneously, the majority of the Bridal/Quinceañera businesses in DTSA are currently enrolled in a Webify training program hosted by the OC Small Business Development Center (SBDC) to develop an online presence, participate in e-commerce, and acclimate to online sales.

We have been in DTSA for decades and we want to stay her for decades to follow. We are doing our part and we kindly request your support with the **Virtual Bridal/Quince Fashion Show** scheduled to occur March 21st from 2pm-3pm streamed through Facebook Live (no live audience).

Respectfully,

Perla Alvarez

Subject: Public comment

Good afternoon, I am a resident of Santa ana for 18 yrs, I currently live in ward 5. I am sending in a public comment for concern of public safety, I understand that SAPD hired additional officers which is great! But I would like to see the effect of it by offering community policing services. Myself and neighbors have had to place security cameras on our properties since there are crimes being committed day and night, for example car break ins, catilac converters stolen, tailgate theft, graffiti, package/mail theft and even entering private property. What happened to the recent hit and run on Sullivan and Willits, did the suspect get arrested for hit and run, vehicular manslaughter? Can anyone inform the public? Also not to mention about having the large homeless encampment near 5 schools on Ross st is very sad to see and not only dangerous for our children! Please city council do something about it, make some change in our community!

Closed streets access

From Raitt to Bristol

Why we residents have been the dark how long the side streets were gonna be cut off for such long time causing emergency services to go all the way around on life threatening situations who dropped the ball causing this And not opening a least one side street opening your selfs to lawsuits??????

As a resident of Santa's Ana I believe the city should look at abolishing single family zoning to help alleviate California's housing shortage. Sacramento and Berkeley have already begun this process and Santa Ana should join them. We need denser housing.

From,
Santa Ana resident Martin M

Subject: City Council meeting comments and concerns!

Hello!

I'm hoping to speak at the meeting via zoom later, but at minimum I would like this comment to be present:

My name is Briana, I'm an arts educator and curator. I've been organizing an extremely safe and successful arts and music event to promote local business and give artists work opportunities in this recession. We're being held back due to a code that all artists need gratuitous business licenses.

This severely harms artists opportunities as they're barely making enough as it is, most of them lost money on last years licenses and then lost opportunities due to covid!

Is there a way to not charge artists for these licenses? Art and music in the streets and at businesses contributes to parking fees and local economy. \$30 isn't much for the city but it can be a lot for artists! especially when they're already investing in tools necessary for their craft. There should be more opportunities and grants for small and emerging artists, not hoops to jump through.

At minimum can there be an exception as covid relief for this year? Or maintaining a free license for students?
